Again, instead of eliminating transit service to entire neighborhoods, why doesn't PRT address its enormous bureaucracy and bureaucrats' bloated salaries??

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Eliminating the 39 bus would completely cut off the Brookline community from access to public transit leaving many residents with no way to get to their job. Not only would this impact the livelihood of Brookline residents it would increase unemployment and stress on an already tenuous economy.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Eliminating the 39 bus route would severely impact myself and my community for those who use PRT to commute into the downtown corridor. The light rail line is too far away from many citizens in Brookline, and so are other bus routes. Elimination of the line would create a transportation desert.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
None of these apply to me
Other comments (bus and rail service reductions):
While none of the above listed issues would affect me personally, they will greatly affect nearly every single person in my life. The people of this city rely on the bus and rail to get to work and recieve medical care. It is the singlemost important public service of the city and to limit service so severely would not only be stupid, but also deeply shameful. I don't pay my taxes for such abhorrent proposals as cutting public transit. Cut police funding or close down the jail, or go after UPMC for money, but absolutely do not cut service that many people rely for their livelihoods.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I cannot recall the last time I used public transportation. However, it is critical to the lives of many Pittsburgh residents. The last time I remember hearing about public transportation problems, PAT eliminated a number of bus routes, including three of the four that serviced the bus stop closest to my home: the Perry Hwy, the West View, and the Fineview, and retained only the Perrysville Ave. route. And now PRT proposes to eliminate more routes, as well as increase fares?
I do not understand why a city the size of Pittsburgh cannot figure out how to keep public transportation operating at least at its current level and cost. Other cities do manage this, the vast majority with a fare considerably lower than that of Pittsburgh. Of 84 major U.S. cities, 61 have a bus fare of $2 or less. Only three have fares higher than Pittsburgh's. I know nothing about public transportation. However, unless something is unique to Pittsburgh and its public transportation system, then if 61 cities have managed to do this, why can't Pittsburgh?

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I literally will not be able to live in PGH anymore if these cuts go through. This is absolutely detrimental to me and so many other people in this city. I would be willing to pay even more money for fare than the proposed increase if there is a way to keep the service reliable. Please please please find a way to not cut the service so drastically.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I am 100% willing to pay even more that the proposed $3.00 in fare if it keeps the service reliable and doesn't result in significant cuts.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
PRT's focus on changing their public perception through a superficial overhaul and name change did nothing to address its inherited problems left by PAT. This organization consistently underserved my community of the Lower Mon Valley for over the decade that I've relied on public transit despite knowing its vitality in supporting the numerous entertainment venues across this city with ready wage laborers.
People rely on these buses to work and afford their bills and rent and to support their families. These cuts show an explicit malice to the region on top of the already proposed overhaul to the currently choked system by renaming long held routes to reflect former street car lines that were far more integrated and capable of moving across the county with timeliness and ease.
Enough bonuses for your executive suite employees, meet your unionized transit ops demands, fund this transit. DO YOUR JOBS.
Pittsburgh Regional Transit cannot do well to live up by its name if it barely serves the region in which its based with service that does not meet the demand
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
Inflation hit citizens hard so a fare increase places more economic burden on our backs.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (ACCESS service reductions):
Many routes currently end well before the proposed cut!
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):

Other comments (bus and rail service reductions):
We are living in the wrong direction by cutting transit-more congestion and pollution with the extra cars needed to get around, and many people not able to get around.
I support doing anything we can to find more funding whether that is public funding through taxes or private funding and donations. I would gladly contribute to a fund to improve public transport service here in Pittsburgh.

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These changes would make it impossible for my kids to get to their teen center after school, which keeps a lot of youth out of trouble. It would also lead to a lot of workers losing their jobs so one public transit is their only means of getting to work. This would
be a devastating decision - surely there are wiser ways to make up the budget shortfall.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I appreciate the necessity to cut budget, but at the absolute least, the Airport Flyer should continue operating through to downtown (allowing for transfer to other transit) and later than 11PM (to accommodate late night flights). The elimination of the Silver Line and reduction of the Red Line is primarily an inconvenience, but one that significantly restricts my access to areas of the South Hills

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Without the 39 and 41 routes there would be significant changes to my work commute to travel from Brookline to Oakland. While this bus commute is over double the drive time by car, it is an efficient and meaningful way to travel. I worry that these eliminations will increase already increasing traffic on this side of the city. As a city, we should not be taking this step back and again creating a community of car-reliance and hope as a state, funding will reflect what people need including affordable and reliant public transportation.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
I don't think this rate increase would be justified now, let alone after eliminating over 40 routes.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
With the major changes that are proposed for the eastern part of Allegheny county, you will leave many people with no option to get to work/school/shopping/appointments/etc. This includes the 69, P76, and P67. It will cause great harm to those who rely on public transportation for their daily lives and remove the option for those of us who need it from time-to-time.
When making proposed changes, do you ever talk with riders and ask for their input before publishing proposed changes? For example, I drive into Oakland several days a week for work from North Versailles. I travel through Forest Hills, Wilkinsburg, and Squirrel Hill. It's inevitable that I get behind one or more of the 71's or 61's. Is there a reason that on some streets, that they have to stop at every single corner?? Would that speed up the route times? Also, you have the 61A/B/C/D that follow the same route from Forbes/Murray. I know the busses get crowded, but have you ever looked into the stacking and try to eliminate that? Or possibly having a more major bus stop in that area to avoid some routes? It's insane and it slows down the commute on one-lane roads when busses stop so frequently. I really hope that it doesn't come to having these drastic cuts. It's only going to hurt riders and the communities that we live in.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I remember when the fare was this much for those of us who lived in Zone 3. Although the cost increase may not be appreciated by many, I think riders understand that costs do have to go up.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Communities in Bethel Park and South Park were built to provide easy, walkable transportation options along the Silver Line. Removing the Silver Line will impact riders ability to get to work and activities in general. Property values will decrease.
Community members whose bus routes will be eliminated will not be able to get to work, school, activities, grocery stores, and healthcare appointments.
Cutting services at 11 pm will impact downtown sporting events, fine arts, and other events.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Though we may not be like New York after 1N/A-11pm, there are still plenty of us who need the buses after those times. Plenty of service industry folks do not even get out of their jobs until 1N/Apm. We can't afford to use services like uber or Lyft every single day it will put us in tremendous debt.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
6+ days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
School
Daycare or childcare
Shopping
Medical care/appointments
Entertainment
How do you identify yourself? Select all that apply.
White
What is your age?
35-44
How would you describe your gender identity? Select all that apply.
Prefer not to respond
Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 3-4

Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
The bus reductions, particularly on the busway will really hinder my ability to get to work and take kids to daycare.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
i oppose in principle but can manage to dish out a bit more to keep access to my buses
Other comments (bus and rail fare increases):
If keeping all the routes or even increase them at the cost of increasing rates then i would rather take the hit on the fare increase than not having access to my bus at all. Bus fare is already expensive as it is, but losing access to the buses i usually take would have a drastic imoact on my life.

Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 2 MOUNT ROYAL (Elim.), 28X AIRPORT FLYER (Major Reduction), 51L CARRICK LIMITED (Elim.), 87 FRIENDSHIP (Major Reduction), 88 PENN (Major Reduction), 91 BUTLER ST (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I can understand some reduction in routes, but all-out elimination of routes should simply not be on the table. I marked "oppose" on changes to the routes I regularly use (they are essential for me to be able to commute to work, especially the 1 and 2), but my opposition to route elimination is strong across the board.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
In the Brookline community city we strongly rely on the bus to get to town. Our bus route is simple it's straight in and out. It's not a complicated route. The busses are packed everyday. They are used all day long by many riders. People are going to be forced to move and can loose jobs. More than half of the kids in this community use the bus to get to and from school. They did away with the yellow busses and now want to get ride of the city busses. Removing the Brookline busses will triple the community.
Please indicate if you oppose or support the proposed fare increases:

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These cuts are an awful idea. They'll cut public transport to communities that are already adversely affected, and also decrease access to the suburbs from the city. People rely on these systems. To live, work, go to school, get groceries, and get medical care. If these cuts are allowed, Pittsburgh's quality of life will decline, and it's people will suffer unduly. Please do not make life harder for us than it already is.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
It does not make sense to cut or reduce routes that are currently packed. I ride the red line, 41 Bower Hill and 36 Banksville Road. (Though I have used other routes when I lived elsewhere in the city) The red line is almost always full during my commute and we need at least 15 minute intervals. Instead a train frequently doesn't show up at the scheduled time. Not late, it just doesn't come. The 41 is also packed anytime I get on it. These lines are vital. I love taking the 36. It is convenient. Not packed, but always has passengers. If that one has to be changed, please reduce rather than eliminate.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
No one likes paying more money, but I understand the fare increase. Plus it is in line with prices that I have seen in other cities. What is frustrating is the proposed INCREASE in fares, with the proposed DECREASE in service. I support public transportation. I ride it daily. But PRT (and I guess the state for cutting funding) is making it harder and harder to use. If you keep reducing commuter service I (and many others) will have to start driving to work because the public service is getting less reliable over time. Decreasing ridership and reliability even more is just going to lead to the eventual demise of the whole system.

Service change impacts (bus and rail):
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
As a senior citizen with limited driving capabilities due to medical issues, I would rely on the bus service to get to locations where I am unable to drive. Also, transportation is a vital component to any productive community that would allow residents to move freely to their places of work, school, health and recreation. It is a sign of a healthy, vibrant city. My brother previously lived in York, PA. Their transportation system was amazing and so much better than what is here in Pittsburgh. It is hard to believe that Pittsburgh is unable to provide its residents with reliable, affordable service. It is a lifeline to many.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
My community of Troy Hill would suffer significantly with the proposed cuts. It is simply impossible for many residents who use the Troy Hill bus to change routes, as it would require walking up and down Rialto street or Troy Hill road, both of which are difficult for people in the best of health, and totally inaccessible for those in poor health. We have no grocery store, no pharmacy, no doctors offices. Residents would be legitimately stranded. This could end up being a public crisis for the city of Pittsburgh.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (ACCESS service reductions):
My name is Matt. My sister, Angie, and I are writing to advocate for ACCESS funding....as we are highly opposed to the proposal in cuts and significant increase in costs. I have an intellectual disability and rely on ACCESS transportation to get to my job at Kuhns market 4 days/week and I utilize Access to get to my Special Olympics basketball practice 1/week Oct -May. There is very limited bus service in my area, it is not safe for me to ride the bus alone, and more routes are being cut. I am a very active member of my community, and I love to work! I live with my elderly mom. My Dad passed away a few months ago. I currently have PFD waiver supports but my budget is maxed out for it. My emotional, mental, and financial health will be negatively affected if I have to limit my employment as a result of the proposed changes to ACCESS.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
Other comments (ACCESS fare increases):
I rely on ACCESS to get to AND from work. I live with my elderly mother who is not able to transport me to and from work 4x's/week. This could result in significant financial limitations, and emotional withdrawal, and limit/completely restrict myself from employment and giving back to my community! I am a very hard worker and extremely reliable. I was employed for 14 years at the Children's Museum. Then Covid happened which resulted in it being closed for a long time. I needed to continue being physically active and resume work. So with the help of my family and support staff, I secured a job at a local grocery store where I have worked for the past 5 years. My family and I are begging for funding to remain in place for my transportation... as well as for many of my friends who rely on ACCESS to get to their vocational programs and jobs!

Other comments (bus and rail service reductions):
The bus system should be improved not dismantled and reduced if we want a thriving city the creates equity for all people whether or not the have a car. Cars pollute and create so much traffic, which is already a problem in Pittsburgh and takes away from the enjoyment of daily life here.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Pittsburgh is already known for being a city that is 1N/A years behind the rest of cities similar in size. Cutting funding to transit - especially eliminating services outside the city and cutting all services after 11 PM - would permanently change the culture of this city's interior and exacerbate disparities across class and race. Most of the workforce can't afford to live in the city proper, so by cutting services to suburbs and townships outside of the city, you would be eliminating a primary lifeline for the book of employees who make this city run. Our city cannot absorb nor should it absorb more cars on the road. Please don't make it so people must spend more money to buy, store, fuel, and upkeep their own private vehicles.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
i manage a neighborhood public pool and all the bus routes to get there are proposed to be cut. many lifeguards take the bus because they are high schoolers who cannot get to work on their own any other way. this impact will lead to us having a smaller staff and a harder time accommodating and protecting the thousands of guests that come to swim, sun, and cool off in the summertime.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
Over the last several years, Silver Line has become the neglected arm of the light rail system.
Trains run too infrequently, and despite that the fact that both Red and Blue lines service the same area when south of Washington Junction, it's the Silver Line that gets ignored, cut, delayed, or otherwise inconvenienced for thousands of riders.
Without the Silver Line, I have NO way to get to work or the store for groceries. I can't "just find a way" to Washington Junction to catch another line - am I supposed to walk six miles? Ride a bike in the rain or snow? I am surely not the only one for whom a car is not affordable.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Abundant public transportation is essential to any city. People must get to work, school, medical appointments, shopping, social visits, and entertainment. Public transportation also minimizes traffic and air pollution from cars. Especially now, when cars and their components are becoming exorbitantly expensive, public transit is especially crucial. Those most affected by cutbacks will be the already disadvantaged, such as the poor, elderly, and disabled. Please reconsider these drastic service reductions! Pittsburgh's vitality depends upon PRT.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
My family lives in the borough of Ben Avon. My daughter has taken the 19L into town since she was a student at Carlow University. She now relies on the bus to get to her job and back home daily. My son also takes the 19L into work and home daily. It is a reliable and economical way to get into downtown Pittsburgh. If these cuts go through the only bus that may be available to them is a 2N/A minute walk to get to the stop and then a very long ride into town. The bus line has made downtown Pittsburgh and surrounding areas accessible and has truly benefited our community. This is a devastating proposal not only to our area but all the areas that may be cut.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
6+ days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
School
Daycare or childcare
Shopping
Medical care/appointments
Entertainment
Social activities
How do you identify yourself? Select all that apply.
Asian
What is your age?
25-34
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
$150,000+
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I would be unable to get to work on my own as parking is not available at my office. I would require my partners schedule to change to provide drop off and pickup at high traffic hours.
Traffic would significantly worsen in attempting to travel south through the liberty tunnels as I live in Brookline.
I would have to consider moving and starting with a new community as I purchased my house primarily because of the Transit access available.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
As I travel on the 41 that picks up and drops off in Brookline, these fare changes seem rather ridiculous. The bus has incredibly limited room when I get on every morning to get to work downtown. Yet this line has proposed to be cut. With no other service option so close this would remove a significant chunk of fare money that PRT receives. Considering the alternative cost for parking downtown as a work commuter I would prefer the line stay and see a slightly higher increase in fare.

As a federal employee I am able to receive reimbursement for my bus pass but no reimbursement for parking.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
As a hairstylist the changes will directly impact my business and accessibility for my regular clientele. It will make travel to my salon impossible from college areas which will result in a dramatic loss of clients and revenue. The negative economic impacts for the region will be crippling a mortal blow to this city

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I know there are a lot of hardworking communities that could be affected, but Brookline has taken years to because what it is with business and people thriving and if you take the bus line away, it would be the start of the downfall of this beautiful community. The citizens need this form of transportation as there are so many who rely on it. We don't have a trolley nearby and to get off the mountain this community sits on would be exponentially dangerous to walk down glenbury or pioneer to get to the nearest stations. Please reconsider.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
This is absolutely ridiculous! I live in Brookline. It's the 2nd largest community in the city of Pittsburgh. We have a high tax base. We get next to no funding or special projects slated for our community. How is it even thought to eliminate our only bus route? Companies are demanding that employees return to the office. How are you expecting people to return to the office in downtown Pittsburgh, when there is no public transportation out of our community? Walking to another community to the T station is not an option, especially for the disabled or families with children in hand. Walking to the busway along a hazardous route is not an option, especially for the disabled or families with children in hand.
City schools require students to use public transportation to get to and from school on a daily basis. What effect will this have on them?
Is this a violation of ADA compliance in not offering handicapped individuals their freedom and accessibility? ACCESS is not an option for everyone that is disabled/handicapped.
There should be no shortfall of finances. PRT should take into account allocated resources and use them wisely. A city of people who rely on or can only use public transportation, is at their mercy. Absolutely outrageous that this monopoly still exists! Commuters are held hostage every couple of years.
What are the safety issues being addressed by PRT for the people paying your salaries (outrageous salaries at the higher levels)? Your actions/proposals speak volume to riders and non riders of PRT! It speaks volume to a city that goes through these proposed changes/elimination of services every few years.
This is the beginning of the end of city, trying to bring people back downtown for activities. Eliminating the only public transportation out of communities is totally unacceptable! It is an insult to the people living within the City of Pittsburgh! Do better!

Other comments (bus and rail service reductions):
Why has Kelleman gotten a raise every year while there is a budgeting shortfall? What other job gets to do a bad job and then you get a bonus? Thats wild. Start with excessive CEO salary and bonuses etc to make up the financial deficit.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
Please look to companies to incentivize their workers to use the bus and other fundraising models like sales and advertisements to make up for deficits.
Other comments (bus and rail fare increases):
Cutting routes and raising fares when you know how badly that would hurt people is cruel and unusual. Do any of the leadership at PRT have to depend on the bus or do they drive around in their cars? I'm sure they aren't waiting for the bus because the bus is not consistent or efficient. Being consistent and efficient has proven to create more ridership. Compel the local government to hold companies like UPMC to pay their fair share of taxes and use that to fund the deficit. There are so many other ways to raise funds.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
It's insane that the CEO and other high level leaders make literally more than 7 times the income of the average Pittsburgh worker, and they have decided to cut transit for ALL rather than consider a personal pay cut or other fundraising or cost cutting measures. Even just since 2N/A21 the CEO's pay has increased significantly. This is just shameful and should they find another line of work if they are unwilling to give up some comfort to make sure people have BASIC needs met. Shame on them. What an incredible injustice. Want to make PRT more successful and increase ridership? INCREASE the number of lines and frequency of busses. This is literally the opposite of what is needed to stabilize and strengthen the transit system. Seriously what are they thinking?!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips

The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
This is incredibly shameful to ask some of the poorest members of society and the general working class to pay MORE for the most basic of needs when PRT's CEO and other high level leadership are making multiple hundreds of thousands of dollars a year. The CEO makes 7 times the income than the average income in Pittsburgh. Are these so called leaders really adding THAT much value when there is a budget shortfall? NO. Clearly not. Find another way to make it work, or take a pay cut to prove you are doing everything you can and willing to reduce some personal comforts when others are losing their basic mobility. It's just shameful. This is why our country is deteriorating so quickly: because of greed like this.

Woman
Which of the following best describes your 2024 household income?
Less than $10,000
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
While I oppose all the proposed eliminations to the routes, the biggest concern of mine is losing access to Silver Line. It is a must we keep this in the South Hills of Pittsburgh.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Silver Line....we built our new home close to the Library Station in large part to be able to use the T in retirement. Losing the Silver Line would really limit our access and the access of thousands of others to Downtown. It will have a negative impact on Downtown as well through loss of income from event related T-users.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I am a nurse at Western Psych who works the evening shift. I get the bus home from Fifth and Atwood at 11:3N/A pm. Without night bus service, I could not get home affordably. I am not alone on the 61A at night. Lots of other tired folks in uniforms are trying to get home, as well as college students. We need transit options after 11 pm to keep the economy of our region thriving. My husband does not drive (he never learned) and uses PRT to get to and from where he needs to go.

Fare increase impacts (bus and rail):
We need everyone pitching in and paying the same amount. PRT is already a subsidized service (which it should be), so we shouldn't be subsidizing it even further when the system is financially broke. Public transit is an investment that benefits just about everyone, so we all need to pay our fair share. I encourage PRT to adopt a system that requires payment from everyone at the same amount. That will not solve all of our financial problems, but it will help.

Other comments (bus and rail service reductions):
My family and I utilize the silver line in fact the reason we moved to South Park and Summit Station was the convenience of the diler line. Not only do we use it to travel to sporting events and other downtown events I use it to commute to work. By eliminating the silver line thus would significantly increase my travel time from the south hills to downtown. We love the ease and convenience and while I understand some stops on busses could be eliminated it doesn't make sense to eliminate the silver line. It's a direct connection to the south hills.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I am willing to pay a little more if it saves the silver line. I do not want to pay 20 a day for parking but I can afford more than 5.50 a day for the T. 3 dollars each way would be do able

I would no longer be able to get to school, daycare, or childcare
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
We take the bus to childcare four days a week. If our line gets cut, we could walk, but would it would take much longer and would drastically affect our schedule. My sister has taken the bus to work every day for almost ten years, and has no alternative transport to their job. If she loses her bus line, she would have to leave her job or move.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
My child likes riding the bus to and from school and around the community. The increased rate per trip to school or the library would make me reconsider how often we opt for the bus ride.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
It's disappointing to see service reductions and fare fee increases shift from a last resort to the only viable option to maintain any sort of public transit system in the region. For myself, I rely on public transit to get to my job downtown. Without consistent public transit, I could not afford the driving commute to work and it would greatly disrupt my schedule to lose out on broader connecting buses like the P78. I am fortunate to have a car to supplement the public transit shortcomings but many do not. Limiting access to transit even more than is already the norm in the Pittsburgh region is no solution, and will harm the connectivity and network that our communities rely on and that we need to invest in to strengthen infrastructure within the region.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
PRT fares are already higher than other public transit systems I have used. The cost of day, week, month, and annual passes already does not provide a substantial economic benefit to saving on my daily commute and higher costs would likely make driving myself a more viable option over public transit. Many others will likely choose the same, an environmental detriment and added strain on Pittsburgh's already congested vehicle roadways. Many others who do not have cars will have to reconsider their options for transit or go without necessary trips to stores, medical facilities, and other regional transit.

Other comments (bus and rail service reductions):
The city of Pittsburgh is already teetering between second and third class status. Discontinuing any services to Brookline, the second largest neighborhood in the city of Pittsburgh would be detrimental to the status class of the city of Pittsburgh. Folks would have to find new jobs or move OUT OF THE CITY. Brookline is not the neighborhood to make cuts. Maybe bonuses to the upper echelon could be reconsidered instead of attacking hardworking Pittsburgers!

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
One of the main reasons I moved to Brookline was because of the 39 bus line that allowed me travel to my work downtown, and for the last 3 years allowed child to travel to her neighborhood school after her school bus service was taken away due to budget cuts. Though Brookline is close to downtown Pittsburgh, it is virtually impossible to get there without car because of the hill, and eliminating it would effectively cut off vulnerable populations like the refugee communities who call our neighborhood home.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Public transportation is not a luxury, it is a necessity.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
This will greatly impact students and staff working or attending school in Pittsburgh and the surrounding areas. Many employees and students fully rely on public transportation to get to and from work, school, grocery store, etc. This will make it extremely difficult for people without cars and will make Pittsburgh significantly less navigable and more congested. PRT bus and rail services offer safe travel options for all residents.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
The only way that Pittsburgh is a livable city for many of us is because of its bus lines. It's unthinkable to have such a reduction of public transit in what is supposed to be an "up and coming" city. Truly sending us back in time
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

Other comments (bus and rail service reductions):
There are so many other ways to generate monies to close the gap like the following:
1. Increase Revenue Through Ridership Growth
- Expand employer transit benefits: Partner with large employers, universities, and hospitals to subsidize employee transit passes, increasing fare revenue.
- Enhance marketing & promotions: Attract more riders through targeted campaigns, discount programs, and improved customer experience.
- Improve service efficiency: Optimize routes to maximize ridership on high-demand corridors while reducing waste on underutilized routes.

2. Generate Non-Fare Revenue
- Expand advertising & sponsorships: Increase digital and physical advertising on buses, light rail, and stations. Offer sponsorship opportunities for high-traffic transit hubs.
- Leverage real estate assets: Develop or lease underutilized PRT-owned properties for mixed-use development, such as housing or retail.
- Explore naming rights: Allow corporate sponsors to bid for naming rights to key stations or lines, similar to models used in other cities.

3. Seek Federal and Local Funding Alternatives
- Apply for federal grants: Pursue funding from the Federal Transit Administration (FTA), including grants for infrastructure improvements and sustainability initiatives.
- Negotiate local funding contributions: Work with Allegheny County and the City of Pittsburgh to secure dedicated local funding, such as a transit-supporting tax (e.g., real estate, payroll, or a local sales tax portion).

4. Implement Targeted Fare Adjustments
- Introduce fare capping: Encourage more frequent use by capping fares at a daily/weekly maximum rather than raising base fares.
- Dynamic pricing for peak hours: Charge slightly higher fares during rush hours while offering discounts during off-peak times to distribute ridership more evenly.
- Expand multi-pass options: Offer discounted long-term passes to commuters, making transit a more attractive alternative to driving.

5. Improve Operational Efficiency
- Increase electric bus adoption: Reduce fuel costs by expanding the use of electric or hybrid buses.
- Optimize workforce management: Reduce overtime costs through better scheduling and operational planning.
- Explore public-private partnerships (P3s): Partner with private companies to fund and operate certain transit services, reducing reliance on public funds.

Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
There are also so many ways to strategize around fare rather than increasing the base price such as:

1. Fare Restructuring Without a Simple Across-the-Board Hike
- Distance-Based Fares: Instead of a flat fare, introduce pricing based on trip length. Shorter trips would cost less, while longer trips would generate more revenue.
- Peak vs. Off-Peak Pricing: Implement higher fares during rush hours and offer discounts during off-peak times to encourage ridership distribution.
- Fare Capping & Subscription Models: Instead of raising fares outright, introduce a daily, weekly, or monthly fare cap. Riders who use transit frequently would benefit from discounts after hitting a certain spending threshold, encouraging more use.

2. Expanding Discounted Bulk Fare Purchases
- Employer and University Partnerships: Expand bulk pass sales for businesses and universities, requiring a minimum purchase that guarantees revenue.
- Prepaid Fare Discounts: Offer small discounts for customers who buy multi-ride passes upfront, ensuring PRT gets revenue in advance.

3. Charging for Transfers or Adjusting Transfer Policies
- Reduced Free Transfer Window: Instead of offering completely free transfers, charge a reduced transfer fee or limit free transfers to a shorter time frame.
- Eliminating Round Trip Transfers: Currently, if customers can use a transfer for a round trip within a specific window, tightening this rule could generate more fare revenue.

4. Special Event & Premium Fare Services

- Higher Fares for Special Events: Charge slightly higher fares during major Pittsburgh events (e.g., Steelers, Pirates, Penguins games) where demand surges.
- Express/Premium Service Pricing: Introduce express buses or premium commuter services with higher fares for faster, limited-stop routes.

5. Modernizing Fare Collection for Efficiency
- Account-Based Fare Collection: Upgrade fare payment technology to allow for flexible fare structures and automatic best-fare calculations.
- Open Payment Integration: Enable riders to pay directly with credit cards, mobile wallets, or apps to reduce cash handling costs and increase payment efficiency.

Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Revamp ACCESS Service for Efficiency
- Encourage Shared Rides: Implement scheduling policies that maximize shared trips for paratransit users to lower costs per ride.
- Limit Premium Service Areas: Reassess service zones that exceed ADA requirements and consider transitioning non-mandated service areas to alternative transport options.
- Improve Booking & Routing Technology: Use AI-driven scheduling to reduce empty vehicle miles and optimize trip grouping.

Expand Partnerships & Alternative Service Models
- Public-Private Partnerships for Low-Density Areas: Partner with ride-hailing services or private shuttle providers for first-mile/last-mile connections instead of running full-size buses.
- Employer & University Transit Programs: Work with major employers and schools to fund or operate dedicated shuttle routes, reducing PRT's operational burden.

Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Again more ways to explore:

1. Adjust Fare Structure with Protections for Low-Income Riders
- Income-Based Fare Discounts: Implement a tiered fare structure where lower-income riders can apply for discounted rates, while standard fares increase slightly.
- Distance-Based Pricing: Similar to fixed-route transit, ACCESS fares could vary based on trip length rather than a flat rate, ensuring shorter trips remain affordable while capturing more revenue from longer trips.

2. Partner with Healthcare Providers & Agencies
- Medical Institution Sponsorships: Hospitals, senior care facilities, and insurance companies could subsidize fares for medical trips, as reliable transportation reduces healthcare costs.
- Medicaid & Non-Emergency Transport Coordination: Expand partnerships with Medicaid and private insurers to reimburse ACCESS for eligible non-emergency medical trips.

3. Introduce Subscription or Bulk Fare Options
- Monthly Paratransit Passes: Offer discounted unlimited-ride passes for frequent riders, generating upfront revenue.
- Prepaid Ride Packages: Allow users (or caregivers) to purchase discounted bundles of trips in advance, securing revenue while offering savings.

4. Optimize Operational Costs Without Cutting Service
- Rideshare & Microtransit Integration: Explore partnerships with ride-hailing services for non-ADA-required trips, which could be more cost-effective.
- Shared Ride Incentives: Offer discounts for riders willing to share trips with others going in the same direction, improving vehicle efficiency.

Other comments (bus and rail service reductions):
I own a car, but I often use the bus to travel around the city whenever possible. These changes increase my personal costs, limit my options, and severely impact many of my community members. The main complaint I hear from Pittsburgh is a lack of a adequate transit system; and for that transit system to be getting WORSE is the opposite direction we should be heading in. There is so much money in this city from being a tech hub, UPMC and their tax-exempt status as well as local taxes all make it ridiculous to make our transit worse AND ask the people to pay more. People who don't have cars mostly don't due to financial hardship, and you pass the buck to those poorest citizens. This isn't New York or Chicago where its just a lifestyle choice. It also makes the city less attractive to transplants and students who want a lower cost of entry to living in our city. These proposed changes are an insult to Pittsburghers.

Other comments (bus and rail service reductions):
The 43 is the only bus that services the top of Mount Washington, truly what do you expect people to take to get downtown? The incline isn't accessible nor reliable, and you can't expect people to walk miles downhill to the T Station that is also extremely inaccessible and unreliable.
This will massively impact those who have limited or no mobility. This will massively impact so many people who rely on buses to get around.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Our whole neighborhood was built based on being right next to silver line access. We payed a lot of money to move here and need the silver line to get to work.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
bus riders will be cut off from jobs and essential services with the proposed reductions. people who work overnights or later shifts won't be able to get to or from work. these reductions in bus service are affecting the city's most vulnerable people, people who lack the physical ability to drive, the economic means to have a car, or whose legal status prevents it. these people rely on the bus to sustain their livelihoods and to receive essential services. pittsburgh needs to go in the opposite direction and provide more transit options rather than reduce the limited service it currently provides.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
again, fare increases are a big deal for people of limited means who make up a large portion of bus riders.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I live in Allentown and the increased service to the area via the T has been life-changing. My commute to downtown takes less time and I save a ton of money not having to pay for parking. I would happily pay more for daily fare to help stave off route cuts.
Please indicate if you oppose or support the proposed fare increases:

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I have relied on the 19L to get downtown since I started going to college in 2N/A18. I now rely on the 19L to get to my job. If this bus line was to be cut, I would lose access to my job. Cars are very expensive and are a luxury I cannot afford right now. I have a close friend who also relies on this bus to get to her job, and she is visually impaired, so this would also be a devastating change for her too. The 19L is always packed with people commuting to their jobs in the city, so this cut would be detrimental to so many people's livelihoods. Something must be done to save these bus lines! I need the 19L to get to work.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
If anything we need to increase our service because the existing service is lacking. I tried to take a bus home from a Steelers game on a weeknight and had to wait an hour for service! Crazy that the closest bus to the stadium only runs once an hour near game times. Also, why is there no East side light rail or subway system?

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
If service continues to suck as much as it has the last few years, of course ridership will decrease, and cutting services will only further weaken public transit. I suggest pay cuts for PRT executives, as well as city and county wide funding changes to make up the difference. UPMC should be paying taxes and back taxes, which would help.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I feel more mixed on bus fares than the cuts overall, but I know it would disproportionately affect the people who actually rely on transit the most, and I wish there were another way to keep transit affordable for those who rely on it

Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
These service changes will drastically affect my and many people's ability to get to work, the grocery, medical appointments, and more. Bus lines are lifelines! My life and so many others will be upended by these changes.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Our transit is expensive as is. Having people pay more for worse bus service is going to harm individuals and families that are already struggling.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
On behalf of the Pittsburgh District, U.S. Army Corps of Engineers, headquartered in the Moorehead Federal Building on Liberty Avenue, I am writing to express our concern regarding the proposed reduction in service. We employ over 8N/AN/A people, with more than 4N/AN/A commuting to the city daily. This reduction would significantly and negatively impact our commuting workforce, who reside in the surrounding communities. Our agency offers a mass transit benefit to encourage the use of public transportation; however, the proposed changes would prevent over 1N/AN/A of our employees from utilizing this benefit and likely result in increased traffic congestion from private vehicles.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
This would be such a hit to the surrounding communities of Pittsburgh and the city itself ! The amount of us that use this every day for work and to go to things in the city is insane to propose to get rid of it. Everytime I ride the silver line in the morning and to every event in the city it's packed . This would be a huge hit to the economy

Other comments (bus and rail service reductions):
The Pittsburgh bus system has a been a huge part of my life for nearly 15 years. Without the bus, I wouldn't have been able to make it to work. Without the bus, I wouldn't have been able to make it to friends and family and grow community in Pittsburgh. Without the bus, I wouldn't have been able to attend countless cultural and educational experiences, allowing be to develop as a human adult. Without the bus, I wouldn't have made it home safely after countless late nights of work. Without the bus, I wouldn't have been able to explore this incredible beautiful and unique city. Without the bus, I could have never made Pittsburgh home.
These cuts will gut the communities of Pittsburgh and make it impossible for people to continue to call this place home. For the sake of our communities, please reconsider.

Which of the following best describes your 2024 household income?
Less than $10,000
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
This is a devastation to business people who come from the North and use the Flyers to get into town. Many of us are families with 2 people working and only one car and because of that transportation into the city is so important.
Can you at least consider keeping a flyer that leaves the Harmar park n' ride. That way people from Freeport, Natrona Heights, Tarentum, New Kensington, Springdale, Cheswick, Allegheny Twp. could get a ride to Harmar and get a flyer into the city. Also consider doubling the fare for the Flyers for the convenience. I think most would be ok with it. Please, please consider the business people working downtown. What will become of Pittsburgh? Very sad!!!!!
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I am all for the increases and maybe even make them higher to save our transportation.
Charge a considerable amount more for the Flyers as most business people would not have an issue with it and appreciate having our transportation available.

Other comments (bus and rail service reductions):
I deeply oppose these cuts. I am about to graduate college. I cannot afford a car. I want to live in a city with public transportation I can rely on all night and day. I will move out of Pittsburgh if it does not provide this to me. I would hate to have to do this. I love this city. I need this city to invest in its people- not just the rich, but everyone.
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
We moved to a house right next to a station on the silver line because disabilities limit my ability to drive, and totally prevent my partner from driving. If the silver line shuts down, our main access to the city will be cut off. My partner will have no ability to travel independently.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
The fares are already at the upper limit of what we can afford, and the only program for reduced rates for those with low income require downloading an app that tracks your movements and otherwise invades privacy.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
School
Shopping
Medical care/appointments
Entertainment
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
18-24
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
Less than $10,000
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Get cannabis legalized in the state of Pennsylvania and earmark some of the tax dollars for transit.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
Legalize cannabis and subsidize fares from the tax revenue.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
If the busses stop at 11, that put people like me who work in restaurants at a disadvantages. How am I supposed to get home? Not to metion the people clubbing, that can put drunk drivers on the streets! I find it incredibly reckless to take away a valid form of transportation away from so many people.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The Pittsburgh community deserves accessible (physically AND financially), frequent, and safe public transportation. If anything we need INCREASED funding to help with rail and bus maintenance, and to increase the extent of trolly and bus routes so it can be used by more community members. Reductions in services and increase in pricing will only decrease the amount of people who can continue to use PRT, resulting in an even greater decrease in funding, and more importantly, it drastically impact the lives of the majority of Pittsburghers, causing loss/or significant challenges in work, housing, childcare, medical care, etc. Inflation has impacted our community, making meeting basic needs such as food clothing and shelter so much harder than ever before. We cannot afford to lose access to public transportation whether due to increased expense or due to reduction in service.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This is actually horrible please don't do this to all of the college students here. Everyone is going to just stop using the bus entirely and switch to Uber especially with increased fares.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Literally no reason to do this at all. just straight up greed
Please indicate if you oppose or support the proposed changes to ACCESS service:

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The breadth of Pittsburgh's bus service is currently one of the primary perks of the city that's drawn my friends here from larger and more metropolitan cities. It would be a huge shame to lose this infrastructre and transit capacity, which so many workers, students, and community members rely upon to access the rest of our city.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
I own a car and drive in Pittsburgh. Even if I never used bus service, cutting bus service would be completely unacceptable because reduced bus service means more traffic. Particularly late night bus service, which is how people get home after drinking. The proposed cuts would put more drunk drivers on the road. As a motorist, I think we should raise the local use fee for cars to cover the costs. It's currently only $5. I think $1N/AN/A to $2N/AN/A would be appropriate. And as a resident of Pittsburgh, we should reduce police funding to fund bus service. Having bus late night bus service to get drunk people home does far more for the safety of the community than more cops and military gear and a cop city.
All of this is without mentioning the economic impacts of people not being able to get to their jobs, not being able to go out, we can't afford that in a rust belt city. Reducing bus service shouldn't even be up for consideration. Find another way.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Thousands of people rely on the bus to work, get healthcare, meet others — essentially, to live life. Crippling the bus system would cripple Pittsburgh as a city. Aside from the damage it would cause to people, it would also make parking and driving, which are already not great, horrific.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I strongly oppose this service reduction. This elimination would have a devastating impact on our community. The Ohio Valley RT 14 provides a critical and vital link to jobs and services in our comunity. Without access to public transit, many will not be able to get to work, including Heritage Valley Hospital, and jobs will be lost. This is the ONLY bus servicing the Ohio River Boulevard area from the Beaver/Allegheny county line to Pittsburgh.
Personally, I appreciate the option to utilize mass transit and take the bus to the city and decrease the environmental impact of my trip.
I very strongly urge that funding be restored to prevent the elimination of Ohio Valley #14

Other comments (bus and rail service reductions):
I NEED PUBLIC TRANSIT. I AM A STUDENT, NURSE, AND COMMUNITY MEMBER. I DEPEND ON PUBLIC TRANSIT TO SERVE MY COMMUNITY. I CANNOT BIKE OR WALK IN THE WINTER WEATHER CONDITIONS OF PITTSBURGH.
THE PRT IS MY LIFELINE. NOT ONLY CAN YOU NOT CUT FUNDING, YOU MUST INCREASE FUNDING.
THE CITY WAS NOT BUILT FOR THE VOLUME OF TRAFFIC IT SERVES EVERY DAY, BUSES ARE A REMEDY TO THIS. MAKING PUBLIC TRANSPORT ACCESSIBLE, REGULAR, AND RELIABLE WILL HELP THE TRAFFIC CRISIS WITHIN THE CITY.
YOUR DECISIONS WILL IN THIS MATTER WILL BE REMEMBERED WHEN I AM VOTING!!!!!!!! SERVE THE PEOPLE, DO NOT CUT PRT FUNDING!!!!!

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
This is an actually insane proposal. The bus service is already less than sufficient to support the Pittsburgh population; these cuts would be absolutely detrimental to everyone who uses or relies upon public transit. Shame on PRT. These are people's lives you're messing with. Personally speaking, I heavily rely upon PRT to get to school, my job, and go anywhere in the city that isn't in my immediate neighborhood. Because it is impossible to traverse Pittsburgh without proper public transit or a car. You guys need to think long and hard about what you're doing and how much this will negatively impact everyone in Pittsburgh. Shame.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These changes would impact me to the extent I have indicated, but I know that there are folks who would be significantly more affected than I. Pittsburgh transit options are already limited compared to other cities of a similar size and further reductions will only make it harder for the most disenfranchised within our community to get to work, get to school, daycare, grocery stores, and basic functions of city living.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Residents who rely on public transit should not have have to bear the weight of the budget issues the city is facing. There are private organizations in this city who do not pay significant taxes to the city and there are infrastructure projects meant to support car traffic that could be sacrificed instead of asking those who rely on public transit to bear cost.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
If the proposed reductions to service are enacted there will be no public transportation in my neighborhood. Me and my neighbors rely on the buses and T to get to work and school and our medical appointments.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail fare increases):
Unless there's a plan in place to help those of us most in need to be able to afford these exorbitant fares in a city with less than ideal transit (bus stops on the side of busy highways with no protection, overgrown with weeds and without sidewalks) it's unreasonable of the city's planning to not allocate more funds to those most in need and expect those citizens themselves to foot the bill

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
I live in Greenfield and I'm 70 years old. I do not drive. The elimination of the 58 bus route would mean I have no transportation. I would like to ask the people making these changes to come to the neighborhoods and actually walk from one bus stop to another. I would have to walk 1 mile from my home to the only bus stop available to me. My home sits on top of a steep hill. There are people in my neighborhood who are elderly and/or disabled. Surely cutting off our access to to vital services-doctors office, grocery store, church, recreation center, and voting is illegal and a form of discrimination.
Other comments (bus and rail service reductions):

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The route cuts, at least from my regular rush hour commute, would make it near impossible for anyone to rely on bus transportation. Inbound in the morning, I currently can catch one of four buses on the West Busway - all of which currently range from moderately to overly full each day. With the changes, we'll be forced to all catch ONE bus, with that one bus having extended times. That just is not feasible to rely on to commute to work each day.
Parking downtown is way out of ours and many other people's budgets. PRT needs to get the funding so people can continue to get to work.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
PLEASE DONT DO THIS PLEASE PLEASEEEE DONT YOU WILL RUIN PITTSBURGH
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones

Other comments (bus and rail service reductions):
Every neighborhood should have access to public transportation.
Mt. Washington 4N/A bus can be reduced to a small shuttle bus during certain times in the day, the bus now runs every 4N/A mins. you cannot reduce that further. The incline is not readily accessible to all Mt. Washington residents.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.),
Service change impacts (bus and rail):
None of these apply to me
Other comments (bus and rail service reductions):
Cutting bus service to Brookline is absurd. Alot of people in Brookline rely on this service to get around town, go to work for their jobs, doctors appointments, food shopping, going to the drug store for prescriptions. Please don't fail the people of Brookline by leaving them stranded and not able to get around. Alot of the school kids take busses to school. How are they supposed to get there or don't they matter either. Don't eliminate Brookline buses

OPPOSE: 39 BROOKLINE (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I'd like to say "Oppose all Changes" but I understand that some need to go. However, it is unfair to eliminate all service to a community (in my case Brookline). There are a lot of people who rely on public transportation. Anytime I've taken the bus during rush hours the vehicle is full. This will have a major negative impact on community members in need of your service.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I don't think a fare increase is a bad thing. Prices go up. That is life. Even at the new rates, it is a good/fair price for reliable transportation.

Other comments (bus and rail service reductions):
My husband and I relocated to Pittsburgh this year from Columbus, Ohio. We decided to live in Bethel Park because of the T. Currently, we are renting a house walking distance to the Bethel Village T stop. My husband commutes to PNC three times a week and has absolutely loved utilizing the blue and red lines. It saves us thousands of dollars each year in parking, as well as time and aggravation for him commuting into town.
We are under contract for a home that is on the silver line close to the Munroe T station. We made a large financial investment with on of our top priorities being that we were close to public transportation. To have that potentially ripped away is devastating.
In addition to the financial burden and inconvenience cutting the silver line would cause us personally, I worry the larger impacts it will have on the city. For many families, they rely on public transit to get to and from work - it is not merely convenience. What will happen to these folks commuting to work?
I cannot imagine the increase in congestion after many companies like PNC have now mandated a return to work. If more folks are forced to drive than take public transit, traffic will be horrendous, parking impossible to find and pollution will only increase.
I worry about how this will economically detract from the city. Speaking for us, we will be less likely to go downtown if public transit is not a viable option. Driving and parking, fighting a traffic is such a hassle. I fear that it will detract from Pittsburgh hosting major events. We are hosting the NFL draft - could you imagine if we didn't have enough public transit to support that? The NFL may have chosen another city to host which means our city and businesses will lose out on millions of dollars generated from the event.
We are more than willing to pay and increase in fare or tax to keep the public transit system whole. In fact, we believe it should be expanded even further, not reduced.

N/A
Which of the following best describes your 2024 household income?
N/A
Including yourself, how many people live in your household?
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I moved here because I wanted to live somewhere comfortably without the burden of car ownership. If the transit service is cut this severely, I will have to look for a new city to live in.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I do not support raising fares while cutting service.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
One thing that might help a little bit is actually charge people who ride the T whenever there's a big event like a game or concert. It seems that most people at the big platform stops ride for free because they open the doors and nobody is in the booth. I'm guessing you have a lot of useless employees who aren't drivers or mechanics that you could look at what they actually do and if they're needed. I get you're not a legitimate business being taxpayer funded and all but you could still try to run it like you're hoping to not lose a fortune and keep asking for more momey.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am a University of Pittsburgh employee and use bus lines - either the 71B, P3, 75 or 71C - to get to and from work every weekday. I also use public transportation for shopping and medical appointments. Limiting our bus services would also have worse outcomes for the most vulnerable members of our community.
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I rely on the buses and trains for all my transportation because I don't have a car. This would cut me off from all the places and things I need, like my job!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
Fare increases mostly affect those of us who are already barely getting by. Other transit options are more expensive. Do I pay the increase to get to my job or buy food?
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
ACCESS is the only way for disabled and wheelchair bound people to get to the Dr! People with disabilities have enough problems finding a job without worrying if the bus will still be there to get them to their job. It is just mean to take away access for disabled riders. Shameful!
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Don't do it! I want to live in a community where we remove barriers for access and employment, not increasingly less. Private transportation for a wheelchair bound person is expensive! So is their medical care!

Which of the following best describes your 2024 household income?
$100,000 to $124,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
If you eliminate the 39 Brookline or 41 Bower Hill buses or any other service in the Southern area will cause a severe impact to our economy. Most companies or corporations employees depend on public transportation on a daily basis . These employees may even take two buses or more to get to their jobs. The impact of eliminating the bus service causes and even a larger impact on today's economy. If the government wants this area to keep on growing and becoming prosperous area for the large Corporations and companies who want to relocate their business too Pittsburgh we must have the availability of efficient public transportation for their employees. There has to be another alternative of eliminating bus services to the Southern Pittsburgh area. Most people who take public transportation may have a severe medical condition and use it to get back and forth to their doctors appointments, work, food shopping or whatever the necessity maybe. Not everyone can afford a motor vehicle or the insurance to go with it. Did the government forget about the employees who had to continue working during the pandemic and had to count on public transportation to get back and forth to jobs. Our Congress people need to help with more funding for public transportation and PRT needs to be held accountable for their over spending.

Other comments (bus and rail fare increases):
28x bus fare price is totally ridiculous. You only have to pay $2.75 from Oakland to Pittsburgh International. But, yet if you don't have a bus pass a 10 minute ride to downtown to go for work it also cost $2.75 who made that decision!!! Corporations and companies are starting to mandate employees back to work for 3-4 days a week HOW are their employees get to work if bus routes are being eliminated and the times on the Trolley schedules are being cut?

I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
To get from Beechview to downtown Pittsburgh it already takes over an hour because of the closure of the Mt. Washington tunnel, to get to Oakland it's nearly 2 hours. There has not been full access to the transit routes for almost 2 years now. There's always something wrong and somehow you guys cannot seem to fix anything. Cutting routes while having an already dysfunctional system is absolutely insane. It is absolutely infuriating to navigate PRT, none of the busses or Ts run on a consistent schedule and are always late. Theres always SOMETHING wrong that causes delays. Until you fix the absolute disaster of a system in place already, DO NOT TOUCH THE ROUTES.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
My travel time would greatly increase
Other comments (bus and rail service reductions):
Reducing the routes will not get more riders, instead make it more attractive to use public transportation. This would get more riders and increase the fares coming in so you will not need to up the fares. To reduce routes would decrease riders and income to prt every time you want an increase in fares you also reduce the routes. This will open the door to the fly by night transportation companies to come in and offer the public substandard transportation.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Please find a way to keep the existing bus routes and light rail service. Additionally, please keep the Silver Line light rail service! I use the Silver Line from the Library station as do many others. This provides essential transportation for those working in downtown Pittsburgh. I would be willing to pay a much higher fare and accept reduced hours and service as long as there was an option to use the Silver Line during rush hours. This line is always full by the time we reach the city as many people depend on it for their lively hood, including myself. Thank you for your consideration.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Bus lines being cut will negatively effect the poorest and most vulnerable people in our community and will create more congestion and traffic in our city.
In a country that is increasingly car dependent due to our infrastructure and community planning, Pittsburgh has been a city with relatively expansive public bus lines. These bus lines serve most neighborhoods, helping our neighbors access grocery stores, pharmacies, medical care - basic necessities we all need to survive. Some disabled people have no way of driving or getting a license and depend on the bus to go about their daily lives. With these cuts, all of these people will have their lives upended with no other choices.
These cuts will force some individuals to purchase vehicles and drive everywhere. The outcome is more vehicles driving on our aging infrastructure. More cars on the road is more time spent sitting in traffic, more emissions and more dangerous, life threatening accidents.
The buslines are a critical part of people's lives. We depend on them and we require them to maintain a functional society.
If anything, public transportation should be expanded. I would not mind paying higher taxes to reduce car dependence and provide critical services to my beloved Pittsburgh community members.
I STRONGLY OPPOSE these cuts!

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I currently do not ride the Brookline 39 route daily, but have in the past. Right now, many neighbors and friends depend on the 39 to get to jobs and/or school. The bus is ALWAYS full of students riding to CAPA in the mornings and afternoons. It is standing room only!
The 39 bus is a lifeline to life on the other side of the Liberty Tunnels for so many people in the Brookline community. One reason we chose Brookline for our home almost 5 years ago was the ease of getting downtown without needing a car. I've spent a lot of time on the 39, going to my previous job, shopping downtown, and getting to restaurants. Please consider the impact to one of Pittsburgh's largest neighborhoods before cutting off the only public transportation most of us can access!
Please indicate if you oppose or support the proposed fare increases:

The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Accessibility is key for people of all abilities to be included in our community. It is important to me that my neighbors can move freely to where they need and want to go, regardless of mobility issues. Paratransit is equity in action!

Woman
Which of the following best describes your 2024 household income?
$75,000 to $99,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to school, daycare, or childcare
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Brookline has so many students that rely on the 39 to get to CAPA, Sci-Tech, Pitt, Duquesne, etc. My son starts middle school in less than 2 years and without the 39 bus he will not have educational opportunities outside of Brookline.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Busses already run very far apart where I am and reducing the number of busses in my area could cause loved ones to lose their jobs. My sister already leaves at 5:3N/A am and doesn't get home until 7 pm or later due to current the bus times. Her work schedule is non-negotiable.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Most people that take the bus have a hard enough time paying for it. Increasing the fares is outrageous and will cause a lot of people to lose the ability to catch the bus at all.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
Less than once a month
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Entertainment
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
25-34
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$75,000 to $99,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
My main concern is with the rail system. Blue line service ridership has decreased because of prolonged maintenance on the route. If the work could ever be completed ridership would go back to normal levels as people are going back in to work/offices.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I will support a price increase to help keep the current rail systems schedules etc in place

Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
By reducing rail service, citizens in the affected areas would have a significant decrease in quality of life. Pittsburgh currently has a very accessible rail service, and to decrease that access would lead to an unprecedented outcome. Already faced with individuals leaving the city, this proposal would decrease the population even more and affect business, commerce, education, lifestyles and so much more. I urge you to not make any changes to the current lines running throughout the city.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
Increasing the cost of service would greatly impact all citizens, especially in a county where the poverty rate is nearly 12%. To increase the fairs would greatly reduce quality of life amount residents, decrease the amount of traffic on Pittsburgh Rail lines and lead to an even greater inequality among residents to rely on PRT to get to the essential places.

OPPOSE the proposed service changes
Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
To decrease the available services for individuals with disabilities would have a catastrophic and unprecedented effect. Indians with disabilities largely rely on transportation from others, including public transportation, when they can not transport themselves. I myself have used PRT and ACCESS many times to get to the hospital during medical emergencies, doctors appointments, and so much more. To not have that access would increase the burden on individuals who rely on it. Pittsburgh which is a regional leader in Spina Bifida treatment would see patients impact; beyond that every individual with a disability who has ever used Pittsburgh transit would see a great impact. Not only would Pittsburgh become more inaccessible, which would hurt any appeal to moving to the city which has seen a start decrease in residency over the past few decades, many individuals with disabilities will have no where else to turn. They won't be able to get to their jobs, which may disabled people already are impoverished due to their condition and treatment costs, childcare, education, medical treatments and so much more. UPMC and other Pittsburgh regional medical facilities are leading in the region, to cut access to them for patients would cut access to ability to receive adequate treatment and care. With these proposed cuts Pittsburgh would regress into being an inaccessible city, one which many will feel as if they aren't welcome in, leading to a further decrease in the economy.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS fare increases):
Many individuals with disabilities are impoverished, due to the cost of medical care and ability to work at a job as their able body peers. To increase fairs for these people, who rely on Pittsburgh transit, would place a further burden on them and their households. The costs are far greater than any benefit, and I urge you to not pass the proposed legislation.

Which of the following best describes your 2024 household income?
Less than $10,000
Including yourself, how many people live in your household? 5-6
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Cutting off service to the suburbs would be a disaster. My bus is always FULL and this leaves so many people without options to get into town using public transportation. The suburbs of Pittsburgh will be stranded.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I know so many people living in Sewickley and the surrounding areas who rely on the bus lines to this area, specifically the 14 - Ohio Valley line. They would lose access to their jobs, grocery stores, daycare, doctors and other necessary locations. I personally would lose seeing a lot of those friends and neighbors and having them utilize the community resources. The community businesses would lose a lot of its service workers. I know our community would not be the only ones impacted by these changes so I am supporting the retention all of the lines that are up for service cuts right now. This truly is a crisis.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The slashing of over half the routes and stops and frequency of used buses will greatly decrease the accessibility of the city to so many people in and out of its limits. Not only will people not be able to get to work but they will be cut off from key essentials, effectively isolating them in their own homes. Pittsburgh is a not often a city where walking to necessary locations is possible, especially for those who aren't completely able-bodied and prepared to urban hike to their desired locations.
Stopping services by 11pm especially limits people from using transport. I suggest at least offer these services later on weekends or allow all buses to run until 1 am instead of the current 4 am time.

The changes may not impact me but will impact my community and/or loved ones
I am a nurse at AGH and nearly all of my patients from all over the PGH area utilize and RELY on the Access system for their daily and medical needs. Access is vital for the less well connected folks who live in our area. As it is now, I still don't think there is enough funding for Access and public transit as a whole. Setting up connections around our city opens up so many opportunities for folks to live, work, and pursue their happiness.
Other comments (ACCESS service reductions):

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
My sibling and friends mostly live in Troy hill and spring garden. It is already incredibly difficult for me to get over there. These cuts would make it basically impossible. Not to mention would probably add to Pittsburghs already terrible air quality because more people would need to drive—also making the roads even more unsafe for cyclists than they already are.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The current bus routes may be imperfect, but they are a key part of so many folks' every day commute and ability to get to necessary services that they otherwise would not be able to. This also includes folks with disability and senior citizens who do not have any other means of transportation. Allowing our most vulnerable neighbors to slip through the cracks like this is patently unacceptable and inhumane. The local, state, and federal governments need to treat our public transit systems in the Pittsburgh region with the same level of funding as any public utility would receive. The expectation of a public service -- like the public transit system or the postal service -- to turn a profit is an incredibly short-sighted and absurd. It is imperative to the growth and stability of the region to provide a robust, accessible, and useful public transit service.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I've relied on PRT buses as my main form of transportation for the last seven years. Cutting funding would greatly reduce the ability to experience the unique wonders of Pittsburgh. I don't have a personal vehicle because I have a disability which makes driving in the city difficult. Without PRT, I wouldn't have been able to experience as much independence as I have. Everybody deserves the opportunity to experience the Steel City on their own terms, and for me that came from using PRT.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I would no longer be able to bus in to work, so I will either work from home or get another job like so many others. I refuse to pay up to $7N/A a week for parking. On the weekends, I just won't go into town anymore. The bus makes it convenient and is much less expensive than taking an uber. Others will not come into town as much either, both for work or pleasure, worsening the cesspool that downtown has become.
The PRT should prioritize making the busses more available and frequent, rather than spending money on re branding and woke electric busses that provide no advantage to the consumer. Whether the budget still wouldn't be enough or not, it is just a bad look as you look foolish for prioritizing woke nonsense over the consumer.

Other comments (bus and rail service reductions):
PRT serves as the school bus for all of our city's children in grades 6 to 12. It is already limited and difficult to navigate, even though we live in a neighborhood that is considered to have reasonable access. If buses are decreased, this would get even worse. What about kids who live in other areas of the city where transit is even less accessible, or proposed to be eliminated entirely? Will PPS be stepping in to provide regular school busses for these kids instead? It takes some kids an hour and 2N/A minutes to get to school already, for a trip that would take 2N/A minutes by car.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
We already have one of the most expensive public transit systems among US cities. This will impact lower income riders the most.

Other comments (bus and rail service reductions):
This is absurd. You are ruining the wellbeing of so many people. I wouldn't be able to get to my job, doctor's, friends' houses, grocery stores, anywhere. This is detrimental. I would move to a different city that actually cares about their communities. This is a life-altering proposition that hurts every single transit user. It's a shame that this is even on the table, this city is unlivable at this point. What a ridiculous and embarrassing thing to propose. Who would move to this city, where there's no affordable housing, no reliable public transit, food deserts, etc., etc., etc.?
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
The bus services now aren't even worth $2.75. Let alone decreasing services and charging us $3.00. These changes would also deter many people from moving to Pittsburgh as it shows our city doesn't care about its residents enough to provide them with equitable public transit. I'd even say that about our current public transit system. I'd sooner move cities than give PRT $3.00 every bus ride.

Other comments (bus and rail service reductions):
Cuts like these impact those most vulnerable, those living paycheck to paycheck. Those for whom the cost of a daily bus ride might be a significant portion of their take-home pay. While our out-of-touch government in Washington DC decimates our economy resulting in massive price increases for daily necessities, a rate hike for public transit could very well break the bank for lower income families. PLEASE. Don't be part of the problem. Be part of the solution! If you can't lower rates, at least keep them as they are and leave bus routes alone. If you remove bus routes you could very well be removing the ONLY way some people can get to their jobs. Sometimes we have to do what's right for the many. Just because it's not the "smartest" business decision doesn't make it wrong.

Other comments (bus and rail service reductions):
As someone who cannot drive, the bus system is absolutely integral to my ability to live in this city. It's already difficult enough as it is and if it gets worse I will just have to move and get a job elsewhere. Which is a pretty abysmal option right now if I'm being honest. Please, please, please keep and improve these routes.

OPPOSE: Y45 BALDWIN MANOR FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Page 2 of the Methodology document states that some of the routes listed for elimination overlap with other routes that serve the same community. Please tell me how/where the Y46 route intersects with the Y45. If it does it is not anywhere near me. Currently I work from home & only need to get downtown 1 time a month. If/when that changes I would have a hard time getting to work. My household only has 1 car & it is needed by another family member. If a shuttle was created to take me from my current bus stop to Washington Junction that would be OK. But with the budget shortfall that's probably not an option.

Oppose or support specific reductions.
OPPOSE: 4 TROY HILL (Elim.), 7 SPRING GARDEN (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I live in Troy Hill, and use the #4 whenever feasible to access the broader PRT bus network for errands and for educational trips for my 5-year-old son (to avoid using our car). Obviously, if the #4 route is eliminated entirely we will rarely ever use the PRT bus service for any reason, but will be OK as we do have a car.
However, I urge PRT to consider keeping some service, even if at a low frequency, on either the #7 or #4 routes. If both are eliminated entirely, it will have a crippling impact on many in the Troy Hill and Spring Garden neighborhoods who rely on both lines to get to and from work. If both cannot be retained, I would strongly urge to keep at least some service on the #7 -- as it is possible for those in Troy Hill without mobility issues to reach the #7 or the #1, and there are major employers along the #7 route in Spring Garden whose employees rely on the bus.
I would also suggest consideration, if it hasn't been given already, to scenarios in which the #4 or #7 buses don't run at a set frequency throughout the day. It's clear from my experience, and possibly clear in the granular ridership data, that the #4 is most used in the morning and again in the evening, with little ridership through the middle of the day. Of course, I'm sure that other lines throughout the system also exhibit similar usage patterns, but just retaining a morning and evening bus on the #4 route (while eliminating the other times), if possible, would be infinitely better than complete elimination of the route.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Even if the needed state funding is obtained for next year, I support increasing fares as listed in the proposal. As a supporter and user of PRT, I think it is most important for PRT to be able to become financially self-sufficient to the greatest extent possible. To me, this must include greater revenue, and a fare increase is a necessary (but insufficient) component of increasing financial independence. I think it's also critical that PRT not completely abandon the Bus Line Redesign Project, but instead reorient it slightly towards asking how can the bus network be redesigned to maximize financial sustainability AND passenger service (not just passenger service, as the project is currently oriented). I think a combination of higher fares, more efficient route design (to better match route location and frequency to current demand and to minimize redundancy) and reorienting routes to a 'hub and loop' model (all routes originate and terminate -- looping through multiple communities -- at hubs with other routes & other transport modes, instead of having many radiating routes from a single hub that serve only one direction and then reverse to come back) could improve PRT cost efficiency. To take the #4 and #7 routes that are most pertinent for me personally as an example: I imagine both Spring Garden and Troy Hill could be served by a single looping route, in which a bus followed the current #4 route and then, instead of running all the way through Reserve Township to 19 and reversing to come back down it turned onto Spring Garden Rd and came down most of the current #7 route. I imagine most of the current rush hour demand could be served by two buses on this route, one running up Troy Hill Rd to Mt Troy Rd to Spring Garden Rd and to downtown, while the other ran on the same route in reverse (from downtown up Spring Garden Ave to Spring Garden Rd and then down Mt Troy Rd to Troy Hill Rd) -- instead of each route being separate and being traversed by many buses in the same timeframe. Perhaps this approach would be more efficient in other parts of the PRT network?

Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposed changes would, in my view, start a death spiral of public transit options in the area, leading to a future entirely dependent on cars or living in a very narrow corridor of bus service. Students both grade school and university, the elderly, disabled, and low income riders would be most affected. These cuts are unacceptable

Other comments (ACCESS service reductions):
My mother and many other members of the blind community of Pittsburgh rely on ACCESS to get around town. Cutting this program would severely limit their ability to live their lives, as many of the activities that the organization I'm a member of, Western PA Blind Outdoor Leisure Development, put on are outside of normal bus routes. Cutting ACCESS would make it so that our members would have to get a ride or find alternate transit options in order to get to the events

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The PRT is a public service that is essential to many people in Allegheny County. They, myself included, rely on it to get to work, to get to school, to get groceries, to engage in the community.
Navigating downtown is a *nightmare* but the PRT makes it so easy. It is a pillar of our already-crumbling downtown infrastructure.3
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I support a fare increase if there is no other option. But I believe there are other avenues we can explore first.
Transit is a public service. We do not ask how to pay for police, or fire departments or other public services. We just acknowledge they are necessary to living in a populated area and pay for them.
As a homeowner, I would support a property tax to address this windfall, and even one so aggressive as to *reduce* fare.
A quick census check turns up there are 600,000 households in Allegheny County. 165$ per household annually answers our 100M shortage. That is to say NOTHING of commercial lots. With those in consideration, taxes would go up such a marginal amount and they could make our transit infrastructure thrive.
I already pay for waste management as part of my property tax. I would love to see a world where PRT was free for everyone, even if I had to pay property tax to see it through. I believe a low property tax could make that a reality.

This is a long winded way of saying I support a fare increase as a last resort. 100 more dollars for an annual pass? I do not need an annual pass, but for the people that do... I would rather see a few dollars tacked on to my property tax.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
While the changes proposed to the P1 are minor, even a small shift in the frequency of the P1 would have a big impact on the large number of commuters and students who rely on the line. The P1 is often already filled to capacity on weekdays at rush hour, and a reduction in service would only make this problem larger.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Politicians are complaining about the unhoused population, but by cutting bus routes, we are preventing people from getting to their jobs and earning a living. This directly impacts people's abilities to live and afford housing.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I think I would be minimally impacted, but I'm hugely concerned about the impact on others, and the drastically reduced access to public transportation that this would cause. What is the projected loss of ridership due to these changes? This will likewise have a domino effect with lack of travel to certain areas and impact local commerce and local businesses. What ARE the proposed solutions to find additional funding?
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The fare is already expensive enough that it took me two years to decide to switch to a bus commute, which I only did a few months ago. I would rather invest in a system that benefits the broader community and reduces traffic and pollution, but this is only possible and sustainable to a certain extent, and I am privileged to be able to make it work. How many others will not be able to afford another option altogether?

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
My typical routes and travel times won't be severely impacted and I also have access to alternative transportation but I strongly support keeping and even making our public transit larger because there are multiplicative effects of a strong system. People have more freedom to live different places and take jobs in more areas and over more varied shifts. If service is restricted people may stop riding the system altogether as they find alternative, more expensive, modes of transport.
Please indicate if you oppose or support the proposed fare increases:

Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Inflation is real, I understand money needs to come from somewhere. I support a fare increase if it's necessary, and if there's a $100 million projected shortfall it sounds like it is, but I hope for our state and city to do their part as well.
Please indicate if you oppose or support the proposed changes to ACCESS service:

Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
I am not an american with a disability but I know for many people ACCESS is the only affordable option for transit. I can't countenance a 62% reduction in the ACCESS system where all of a sudden people who rely on the system now live in an uncovered area or their doctors aren't in a covered area. I fully support maintaining or even expanding ACCESS.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The average commuter's life would include much chaos daily. You would have to take several buses instead of one in order to reach work on time each time. So each day you would have to catch 4-5 additional buses just to obtain money to take care of your family. Everyone does not have a car and/or cannot afford either the upkeep of one, monthly payments or insurance. The bus stop would be miles away from your home; how would you get there initially to start your daily commute? If this trip is longer in the Spring/Summer/Fall; how would it be during the winter when buses are habitually late?
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
So after not being able to afford to ride public transit what mode of travel could I utilize to get me to work daily? Uber rides, cabs are unobtainable costwise, depending on friends/family are not feasible either?? So paying the additional monies would have an adverse effect on my monthly budget; something would have to be let go..prescriptions, utilities, groceries, etc.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
I will no longer have an easy and affordable way to visit my parents.
Other comments (bus and rail service reductions):
I rely on buses when going out on evenings and weekends. Reduced bus availability means I will spend less money in city businesses, restaurants, and bars, especially when it is too cold to ride by bike. In general, this will negatively affect my lifestyle enough that I am considering moving to another city (i have a remote job).
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I think the city should institute some kind of tax hike on private transportation (via tolls/congestion pricing, parking fare increases, automated parking enforcement, automated speeding and red light enforcement) to help lower the budget deficit, similar to the strategy of the MTA in New York.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Bus service in Brookline is essential for transporting students to school and ensuring that workers—including my daughter's childcare providers—can get to their jobs.
We are already facing a childcare crisis, and any reduction in public transportation services would only exacerbate the stress on working families and providers. Reliable public transit is not a luxury—it is a necessity and a civic duty that must be prioritized.
I urge you to vehemently oppose any budget cuts to PRT and advocate for maintaining and improving bus service in Brookline. The livelihoods of many depend on it.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
Other comments (bus and rail service reductions):
I rely on PRT to get to work, doctor appts, friends' homes, and other destinations. With these reductions, I would no longer be able to access necessary healthcare services unless I can arrange transportation. If anything happened to my primary support person, I would also not be able to access grocery stores and my current pharmacy. Due to limitations, I would also be unable to reliably get to work when I have to be in the office. This will not only affect me, but it will also affect my patients, as telehealth is not an option for everyone. I strongly oppose these cuts, both as someone who relies on the bus lines and as a community member who recognizes the numerous people who depend solely on public transportation. This would be devastating to marginalized communities and individuals already struggling to make ends meet. I will be contacting my reps regarding this matter.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Everything is getting more expensive. This being yet another expense that families have to plan for, simply put, will result in many having to decide between paying other bills, buying enough food, or affording to get to work. This will have a negative impact on communities--we should be finding ways to strengthen communities at this time.

Other comments (bus and rail service reductions):
I'm a CCAC student and my mother works at an eye doctor place in the city, we live in Ambridge, and a lot of times, I take the 14 hear and BCTA route 1 back for economic convenience. Also I train at an MMA place in the strip, and occasionally go to Robinson Mall & Settlers Ridge, and when my moms not taking Lyft, she rides the 14 to and from work, so eliminating all PRT access with the rules that BCTA have to follow every time they come to Allegheny is nonsense, so ether keep the 14, bring the 21 or the proposed D23 to Ambridge, or release the restraints y'all have on BCTA, cuz Ambridge is a profitable location, and isolating me, my mother, the old timers, and the new comers who go to the city for the bread to feed their poor and working class families would have a hard time with the way y'all are doing it.
Even for the places I don't go to, the way you plan on eliminating routes would have major impacts on people compared to some other ways to do it. Like for example, instead of cutting the silver line, why not just keep the silver and cut the blue line, that way, you can give people easy access and still have a line eliminated, read the map before doing stuff, YIKES, theirs college kids that can't even afford a car and have to work to pay for school stuff, sports gear and food, so the 24 making stops at CCAC West is actually a good idea and keeping the Moon Flyer to give RMU students an easy access to Robinson Mall on it's way to & from Pittsburgh are great ideas. And finally many communities have public transit companies that don't even run on weekends, and also, have people from other states and different countries, so think of the people that have to work on weekends, and those that go to sporting events.

I cannot believe that a city neighborhood 4 miles from downtown is proposed to lose its public transit. If you can't serve city neighborhoods at the very least, you might as well just give up and close down PAT, err PRT (guess that re-branding was worth the money spent on it - how do you spend money on that, but can't afford to do you're primary mission?). People live in the high density city neighborhoods exactly for these sorts of services. That should be the VERY CORE of your business model! Like the city needs another reason to lose residents. Brookline needs its transit. Maybe just focusing on the basic service needs to be the priority and not spending money on splashy "rebranding" and creating a pretty bus route from downtown to Oakland as though a bus to Oakland is a novelty. But the way you're running tve agency into the ground, perhaps it will be. What a joke!

Other comments (bus and rail service reductions):
Good afternoon. I'd like whomever is reading this, to stop what they're doing, and try their hardest to empathize with how I am feeling; with how we are all feeling. I am not talking statistics, numbers, or research here - although all of that supports what I'm about to remark on, as well. Simply put, and if you read no further than this, please realize that cutting public transit routes is taking away healthcare, jobs, childcare, and so much more, from the entire community. The Pennsylvania state driver's manual states that "Driving is a privilege, not a right." And I agree. So what rights do we have if not for public transit.....? Not everyone is fully able and can walk. Quite literally. In America, especially, it's hard to get around without a car. The privilege of driving is widely taken for granted. I specifically moved to Pittsburgh with this in mind. I do not drive. I am not able to. Moreover, I cannot afford to, for that matter. (car payments & upkeep, & gas & all of that, will burn a hole in one's pockets.) Pittsburgh has the best public transportation system on this side of the state. Even then, it is, admittedly, a little lacking. To get to a neighborhood maybe 3-6 miles to the left of mine, I'd have to catch a bus all the way into town one way, and then back out of town to that neighborhood. But I digress.... As it stands, at least there are two transit routes I could take within a few miles of each other, at present. If one vehicle is running late, I'm able to walk down the hill and catch a separate one, no problem. I can board these routes and get to most things with fair ease; but it's worth mentioning, I'm a fairly young individual that can still walk, unassisted, and who doesn't have to carry children around. These proposed changes would put ME in a very hard spot. I cannot even begin to fathom how difficult life would be for someone without a car, that has to take their children to and from daycare, or the doctor's or something. Or, for any wheelchair users who are unable to drive, who cannot just walk an extra mile to the next stop. Also, not all of the stops are even wheelchair accessible. I'd like to point out specifically that in my case, in my neighborhood, and surrounding ones, there would no longer be ANY busses that reach my area, with these proposed service cuts. It would be just the red line which would be nearby. The red line is about an hour walk from Brookline, which is a 1N/A minute drive by car. I don't know that many people are reduced to having to know these kinds of things. (how close by their nearest bus/train stops are, & how long it'd take to walk there.) Most people are able to drive. However, these changes would greatly inconvenience them as well. Cars break down, or people try to avoid paying the heavy parking tolls of downtown by taking the train in to work... If they can no longer do this because their options are cut, you're going to be LOSING money. It is not just a small group of people that are inconvenienced by this. Honestly, I find it reprehensible that PRT just bought a handful of new electric busses, and spent money on an UNECESSARY advertisement campaign, (the courtesy campaign,) just to turn around and cut necessary routes. No one needs to be told how to be courteous, and if they do, well, an advertisement isn't going to change their mind, or suddenly change their life around. Please reconsider. I am writing to the bigger part of the issue, too, the funding crisis that may very well be out of your hands. If we cannot stop the funding crisis, though, I beg of you; don't cut entire lines. There must be another way. Decreased service times. Decrease in number of stops. Something, anything. Please - Help us to help you. You're going to lose money while trying to save it here.

I would gladly pay a higher fair to be able to get to where I need, when I need, with more ease. I understand that some cannot afford it; however, that's what programs such as Allegheny GO are for. Which I highly support.

Desktop version was slightly difficult to navigate, the next button in the bottom right corner was not as apparent as the very visible "Start" button for the mobile version. Very smooth operating otherwise. Thank you for your time and consideration.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I do not drive. The cuts to the PRT would effectively kill the public transportation system in the region. Ridership is up. People use the bus. Build it and they will come. I am heartbroken that Pittsburgh had a great trolley system that was torn up to end accessibility and affordability in order to buttress the automobile industry. Pittsburghers want public transportation. Let's not make the same mistake again. It is a public good. Now with the Trump Tariffs will make cars more expensive. Folks can't afford cars and insurance. Plus not everyone has the skill to operate a 3N/AN/AN/A lb metal machine. It is economic discrimination from opportunity, freedom, and movement. Pittsburgh pays for Emt, police and hight speed internet for central PA. We demand the OUR tax dollars be dispensed for OUR public transportation

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I moved to a walkable community with easy access to public transportation in January 2N/A24. The move allowed my family to get by with a single car, accessing the city of Pittsburgh and the south hills using light rail and buses. Proposed PRT cuts threaten my family's ability to access health care and other necessary services.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
If State funding is not sufficient to maintain the current level of service, additional funding through non-monthly rate fare increases and/or contributions from county/local taxes are the only reasonable options. Less service will lead to decreased ridership and lower revenues leading to more service cuts. This degrowth of public transportation model is the opposite of what our region needs. Funding could also be improved regionally by de-incentivizing personal transportation to congested and busy areas e.g. congestion pricing and other fees.

Similar to the 1% sales tax levied to pay for the stadiums, among other commercial ventures, there is a way to fund public transportation. The difference is just that PRT benefits the working class, elderly, and those who need a hand and the stadiums benefit the privileged and wealthy. I know there are creative ways to fund public transportation that prioritize the our greatest asset, the people who use mass transit.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I rely on the buses running after 11pm to get home from sporting events, concerts, and bars. I'm not sure why Port Authority would cut this service when the busses are consistently pretty full when I ride them. Especially after Penguins and Pitt Football games I'll have to wait for multiple buses because there already aren't enough buses to meet demand. I don't want to have to leave a close game early because the buses are going to stop running. How many local nightlife places are going to lose out on business because people aren't going to go out if they can't get home? What's going to happen with DUIs? I would never drive drunk but some people will. Cutting off service at 11pm is going to really harm Pittsburgh.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
Leaving Greenfield with ZERO bus routes is undeniably heinous. Like many city residents, I do not own a vehicle, and have used public transit since I moved to Pittsburgh in 1982.
I count on the buses to shop, vote, attend social and cultural events, hit the library, get a haircut, eat out, visit with friends, keep doctor and dentist appointments, get my taxes done, go to the bank — pretty much everything. I was so happy to live in a metropolitan area with good public transit, since I'm too old to hitchhike, and taxis are notoriously unreliable.
Since I have had knee surgery last year, and another coming up this month, I have been paying for Access to get around. I was so happy to get my Senior Pass a few years ago, after paying for bus service here for 4N/A years.
Cutting Access service and disenfranchising so many customers in various neighborhoods would be pure evil.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I receive free bus fare through my job at Pitt, but haven't been able to take advantage of it as much as I would like due to the lack of service to the area that I live, Mount Washington. This has been a sad fact that I've lived with in my 2 years of working for the University. I WANT to use public transportation, but it's simply not an option for me. Reducing service would make this even less of a possibility. It would basically abandon Mount Washington entirely and leave us disconnected from the rest of the city. This is dangerous when you consider how many people come up to Mount Washington to visit our bars and restaurants and need a safe way to travel home after drinking. Not everyone who lives in Mount Washington is a wealthy, able-bodied person who owns a great car. A lot of us are just every day, average income folks who would love to use public transit to get around affordably and sustainably. This would remove that choice for us. I have been thinking about moving for a while because things have been getting dicey up on the Mount, but cutting our service would be the nail in the coffin for me. It would be proof that the city has no interest in helping the people who live up here because they assume we're all hoity toity rich people who couldn't be bothered with transit.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
Less than once a month
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Social activities
I answered these questions personally, but I am most concerned about the people my nonprofit agency serve, who are using PRT for work and accessing vital resources.
How do you identify yourself? Select all that apply.
White
What is your age?
35-44
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$125,000 to $149,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
N/A
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
I have a limited income as it is. The ACCESS service is limited in and of itself due to overscheduling of rides and no guarantee to getting to destinations on time. I have been late to appointments even though I have scheduled for early pickup. I am not able to drive so I need the critical services that ACCESS and Public transportation provide. I am not able to work very much due to my disability and an increase of fare would mean that I would have even less money to spend on my daily living needs.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
I would have to switch to another mode of travel or rely on a family member or friend
The fare increases may not impact me but will impact my community and/or loved ones

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
"The proposed cuts would be disastrous for Pittsburgh. Reliability is arguably the most important factor in gaining ridership, and these changes would doom PRT and public transit in the region. So many people rely on the buses, and without them, I can only imagine how difficult life would become. Many who are unable to drive would be stranded or forced to relocate. Students would have to find places to park. Traffic would further clog the streets, making bicycling more dangerous for those who might try it as an alternative. People who don't have personal vehicles—either by choice or due to budgetary constraints—would have their mobility hindered, and Pittsburgh would become a considerably less connected community. These service changes could also be detrimental to businesses whose workers rely on public transportation to commute.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The price of bus fare or a bus pass is already too high for what is provided. If service faces additional budget cuts AND the price increases, it would be a national embarrassment.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
We absolutely need MORE transit options, not less. As someone who relies on transit to get to my workplaces, I already have to budget for extremely long commute times due to the way that the bus schedules line up, frequently leaving me with 1.5+ hour commutes each way to go somewhere that would take a car 2N/A minutes, and eating up my productivity as I'm spending so much time in transit. Improving transit service is ESSENTIAL to increase ridership. Cutting service will only lose you paying customers as PRT becomes less and less of a reliable option, leading to more cuts in the long term, and leaving the most vulnerable Pittsburgh residents stranded with no way of getting to where they need to go.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I read that the P3 is increasing times between arrivals. That will greatly reduce my flexibility in getting to work. Pre-covid, the P3 came every 7 to 8 minutes. Now it is every 5 (when it runs on time) during peak hours. Every 2N/A minutes means I will need to change my wake up times as well as when I leave work. And the buses will no doubt be more crowded.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
Cutting services will leave the most vulnerable stuck and without support. Under no circumstances should services be cut or reduced as proposed. The wait time and travel time on buses are already outrageous; cutting them further is unconscionable. If Pittsburgh wants to be an actual city, readily available transportation is a requirement. Cutting the lines further than they have already been cut in the past 15 years is doing an extreme disservice to the entire city of Pittsburgh and not just the individuals who use, need, or rely on public transportation. Not to mention, the more public transportation routes are cut, the greater the economic hit Pittsburgh will take, as fewer people will be able to navigate around the city. Cutting and reducing the bus and rail service as proposed will undoubtedly have grave effects on the entire county of Allegheny.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I understand the perceived need to increase fares; however, decreased or reduced fares must be accessible to people AND accessible to more people than they currently are. Additionally, PRT rates are already on the high end and increasing them further is a disservice to all PRT riders and the people of Allegheny County as a whole. IF the fare increases (not above the proposed rates) were to prevent the cutting and reducing of service lines, it could be understandable, however as the proposal currently stands it is completely unacceptable.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I have been working for over 4N/A years and have always used public transportation. It has been getting more difficult and with the proposed cuts it will be even more problematic. It takes 1 hour each way now to get to and from work. With these cuts it will drastically increase these travel times to 2 to 3 hours each way to get back and forth after working 8 1/2 hour days. This will be detrimental to everyone who travels to and from work. It seems that prt is catering to people traveling to Oakland and there are other places people need to get to. Some of us have to get on 2 busses now just to get to our jobs. Please reconsider these cuts especially from the suburbs into downtown pittsburgh. Thank you.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Raising fares would be detrimental. Look at eliminating the school children who are riding public transportation.

Other comments (bus and rail service reductions):
Pittsburgh Regional Transit is integral to my family's life.
In Greenfield specifically, we're in a City neighborhood seeming close to everything, but hard to walk or bike (safely for certain ages) to anywhere given topography and the interstate. For PRT to propose cutting transit to this central City of Pittsburgh neighborhood is ridiculous. We are ~2 miles from Oakland and ~4.5+ miles from Downtown. BUT we wouldn't have transit under this proposal.
The 52L, 53L, 58, 65, AND 93 would all be cut. The 58 is proposed to be cut for low ridership, BUT its ridership has been drastically impacted by route changes of the 93, which runs more frequently and along a similar route. The 93 would be cut because it serves Hazelwood, which would retain other service. But Greenfield would be left without. Please look at the data and consider REAL transit ridership from Greenfield. I know tap data only shows where people get on, not off, but look at 93 data --- and who is boarding in Greenfield. Look at 58 on and off data in Greenfield. Consider how cutting the 65 affects school-aged children. And cutting Downtown service from Greenfield is ridiculous. I can drive there in 1N/A minutes and pay a fortune to park, but I couldn't take an affordable bus?
I take transit to work and home 3 days a week. Parking in Oakland is atrocious and transit is required to get there.
My oldest child takes transit to Pittsburgh Public Schools' Science & Technology Academy daily, plus from Oakland to Obama Academy for sports – and in reverse. Expecting parents to drive into this congested area to drop off and pickup school aged children is absurd.
My younger child expects to the do the same next year; his peers were expecting to take the 65 to their new middle school (Colfax) and high school (Allderdice) as well.
NONE of these transit cuts think about how dependent on transit individuals and families are. Legislators need to consider affordability, the urban nature of the city, traffic implications, cost to the individual, and increase in air emissions. Transit rocks.

Other comments (bus and rail service reductions):
It looks like you are eliminating all of the bus service for the South Hills. This would leave me with zero options to get to work. I'm already having trouble with the inconsistent schedule, the app that does not reflect the correct stops and the signs that tell you the stop is eliminated but doesn't tell you where to go. I was new to Pittsburgh and had major difficulties transferring buses downtown when I first got here.

OPPOSE: 36 BANKSVILLE (Elim.), 38 GREEN TREE (Elim.), 41 BOWER HILL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Removing the 36, 41, and 38 lines would greatly impact traffic, especially during the morning and afternoon commutes, in the South Hills. Since Mt. Lebanon is a walking school district, many children are crossing streets and walking on sidewalks along Beverly Road, Cochran Road, Bower Hill Road, and Cedar Blvd. during the commute hours. If commuters would now have to rely on personal vehicles to get to work that could result in hundreds of extra vehicles on the road in the morning. The bus options provide safety to children of the Mt. Lebanon community and a great option for citizens working downtown or need access to downtown. The T is an option for some, but most along the 36, 38, and 41 lines have to travel a mile or more to catch the T, likely in a vehicle. Many people move to Mt. Lebanon for the walkability and not having to rely on personal vehicles every time they leave the home. Removing the lines would remove the accessibility that drew many of us to the neighborhood and that lifestyle it offered.
Personally, I ride the 36 into the city to catch a bus to Oakland for my employment at Pitt. I have been doing this since I moved to the neighborhood beginning in 2N/A12 when I worked at Chatham University. I find that even when factoring in transferring downtown I arrive at campus at a comparable time vs. driving, entering Oakland, parking, and walking to my office. I often take many other bus lines to get to destinations across the the city. I use the line to get to work, as well as attend community events, sporting events, and medical appointments. I am one less driver on the road, one less parking spot filled, and one less person adding to the congestion that plagues the city.

Other comments (bus and rail service reductions):
This will make downtown much less accessible as driving and parking there are difficult. This will also lead to more dangerous roads by incentivizing people to drive late at night. This measure is both dangerous and would tank business downtown.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I only commented on buses that I personally know will have negative impacts on my ability to get around the city but I generally oppose all cuts. These cuts disproportionally impact the buses that get the every day workers to Oakland and Downtown. It's not equitable in any sense. For example, the 58 has been on the chopping block due to PRT's willful inability to make this is a functional bus route--it routinely doesn't show up and isn't scheduled at the right times to get Greenfielders between work in Oakland. This type of mismanagement is galling considering the sheer amount of university-provided bus passes around Oakland. Cutting the 58 would cut off upper Greenfield from bus service entirely and disjoint bus service in Greenfield. If I opted to take another bus to Oakland, it would take me 2-3 times as long so I just walk instead when I can since that's literally faster. Sometimes, I cannot walk due to the weather or an illness/injury or when I'm carrying heavy items so I would be stranded. You are forgetting the topography, abundant side steps, and lack of sidewalks in much of Greenfield. Furthermore, by cutting the 58 and the flyers in Greenfield, that would take what currently is a very quickly 1N/A minute trip to Downtown and make it take 45-6N/A minutes on a 61C (since you already very cut the 61D service to Downtown). I also make regular trips to Avalon, and I have extremely familiar with the poor bus service there. The 19L was never on time but it was also packed for the trips around rush hour, even post-pandemic. Same with the 16/13. Your last plan envisioned to finally restore some of the service to Avalon that you had cut 15 years ago and now you are going to cut most of it? That also shows extreme mismanagement--you're just cutting places with no concern for customers who rely on your service. You're also stranding everyone who lives in Brookline--I visit there often and would have no way to get there at all, which is crazy. It's not easy to travel from Greenfield south already since I have to go through Downtown but this would entirely eliminate it. Don't forget that we citizens of Allegheny County subsidize PRT and we deserve better than this. This would look like some drunken buffoon threw darts at a county map if it wasn't clear that this targets the vulnerable communities that the tax dollars are provided to you to serve. It's also clear that you are are creating this situation through decades of poor management and backwards thinking. It's also very fishy that suddenly switch tacks to claiming poverty after rolling out plans to revision the bus system, which frankly was a silly, unjust plan done to appeal to rich commuters who come to the office once a week rather than daily riders. After that plan was thwarted, now you are threatening to use working class Pittsburghers as hostages to squeeze more money from the state and use that as cover. This is unequitable and disgusting. How about you actually listen to what the passengers want. If you created better routes at times when people need to take the bus with RELIABLE transit, then you would have more riders. It's simple math.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
We already have some of the most expensive fares for worst service. I lived in Tennessee and when I took the bus in Nashville, it was on time with clean buses--imagine having nice buses with trash and recycling bins on them rather. I thought it was some kind of uptopia.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I chose to purchase my home in the city of Pittsburgh specifically in BROOKLINE due to the community having public transportation as I do not drive. Taking off the only bus that services this neighborhood is unconscionable and cruel. You are leaving many people without access of getting to medical care, work or having any way of life, this will cripple residents of this neighborhood, who also pay the highest taxes in the city. You also propose to take off the buses that I take to actually get to work and the only bus (41) that goes to my hospital (St. Clair) therefore effectively leaving me no choice, but to sell my home and leave the entire state. This is absolutely an unconscionable, leaving residents without public transportation is not the way to go. I forsee a lot of homes that will be going for sale and people moving out of this state more than what they have already been doing in the past three years if this was to go through.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.), 41 BOWER HILL (Elim.), Y47 CURRY FLYER (Elim.), Y49 PROSPECT FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I purchased my house in the city of Brookline due to the transportation options that were available. I'll be at only one bus. It was still something to not have this bus run in the neighborhood means I will no longer be able to actually get to work as your proposal Takes off not only the bus in my neighborhood but the Y 47 or the Y 49 also takes me to my place of . Leaving entire neighborhood without one mode of transportation is cruel and will force many people to sell their houses. If Pittsburgh thinks they have a homeless problem now just wait because your proposal is going to make a lot more people homeless if they cannot find a way to have transportation to take them to work to earn a paycheck to pay taxes and live. If money is to be saved, what could be done is scale back on neighborhoods that have more than two buses running through.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposed service changes give a very bleak picture into the future of Pittsburgh's public transportation system, a system that has provided myself and my loved ones with access to jobs, community centers, schools, food, entertainment, and other requirements for a healthy and full life. I have lived in the city of Pittsburgh for nearly 3N/A years, and been a full-time public transit rider since 2N/AN/A9. I have medical diagnoses that prevent me from being able to drive, and PRT has provided me with the freedom to work, live, worship, and contribute to my community in every neighborhood I have lived in - Brighton Heights, East Liberty, Highland Park, Friendship, and most recently Beechview, where the Red Line light rail is the cornerstone of public transportation to a number of growing business districs.
The proposed changes to PRT's transit map would bring significant and devastating changes to Pittsburgh's commuter population - those who travel for work or school, those who are unable to drive, those who would like to reduce their environmental impact by utilizing mass transit, and countless other intersections of experience. I believe that if the system truly cared for those who use it, there would be other options made available before wiping half of the routes off of the map and cutting all service after 11:N/AN/Apm. Pittsburgh is known as a community that bands together when needed - if we continue to be separated by our access to basic human needs (food, community, health care), we will lose the ability to come together and care for one another, and those who are already working tirelessly to live will pay the highest price.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Increases to fare are inevitable as inflation occurs, ridership changes, and funding sources suffer. I recall the previous Zone model that changed fare based on distance, and I do wonder if there are merits to this system. San Francisco's MUNI, BART, and CalTrain systems, for instance, have variable fares based on distance traveled - most travel systems (Uber, Lyft) operate on this principle as well. Removing service to less-central locales (South Hills Village mall, Edgewood Town Center, and others) provides no benefit other than supposed financial, but eradicates an entire rider sector who likely has no other accessible means of getting to these places for work or enjoyment. Increasing the fare to these further distances, at the very least, keeps them accessible to those who need it.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Catching the bus is a vital part of my day. It's how I get to work and back home again. Without reliable bus service, things get tricky. Grocery shopping becomes a real challenge, and even getting to appointments is difficult. Public transport is essential for so many people like me.
Cutting routes just makes getting around town a major hassle. More buses, not less, would make everyone's commute so much easier.

Other comments (bus and rail service reductions):
I'm really disturbed by this proposal for cuts and reductions and I hope the city can find funding elsewhere to stop this from happening! I don't know how Pittsburgh would continue to function without its current bus lines and availability past 11pm. It already seems like buses don't come often enough and that's a big reason why people don't use them. Cutting off entire neighborhoods from public transport would negatively affect this city in irreversible ways and does not make sense. No matter where you live, there should always be an option to take the bus if you don't have another mode of transportation! I've lived here for 11 years and I didn't have a car for the first 7. That wouldn't have been possible without many of these lines.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Previous service cuts have fully eliminated local bus service in my area, and my closest bus stop is now an hour and a half walk into the next town over. Please no more cuts, I've had enough.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It seems like a small increase, doesn't it? And yet! I once was reduced to living out of my change jar when between jobs, and taking the bus to the interviews I needed to find stable employment again was nothing short of a terror. What's three dollars to you is not three dollars to me. That's dinner. That's lunch. That's enough to scare me off the bus and walk two hours into the city because if the interview fell through the bus fare would have been a waste of money. I'm doing better now, but I know many others are not. And I'm still a little scared of paying for the bus, sometimes. I would like not to be.

Other comments (bus and rail service reductions):
I ride the Pittsburgh Regional Transit (PRT) buses every day. I live and work in the City of Pittsburgh—and have done so for over 3N/A-years. PRT has been an important part of my work experience since graduating from college decades ago. As a young professional, PRT was the determining factor whether I accepted a job opportunity, or not.
Earlier in my career, PRT made a BIG difference! Especially during times when my wife and I had to navigate our way as a one car family. Working full-time, managing daily activities, and picking up children from preschool was just one example where PRT played an essential role.
For this very reason, I am opposed to the proposed 35% service cuts. Today, I still ride the bus to work. It's convenient and easy! In fact—it's economical. Cutting bus services can have a huge impact on So many young working professionals. I urge you NOT to decrease the agency's operations without funding from the state government in early 2N/A26. Make an investment—fund PRT's operation! In doing so, you're investing in the future of young college graduates who live, and work in this region.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
One of the main reasons I work in Downtown is so that I can take the bus from a park 'n ride lot and not have the stress and frustration of commuting to and from the city. I've had other jobs in my career where I've had to commute by car, and it was way too stressful for me. Parking in Pittsburgh is very expensive with a "convenience fee" for using an app to scan and pay which is something I also do not want to do.

Other comments (bus and rail fare increases):
I do not understand why PRT is the 5th most expensive transit agency in the country. If you have not already done so, you should be reviewing the structure and costs of public transit in cities similar in size to Pittsburgh and right-sizing PRT internally, including cutting unnecessary spending (i.e. DOGE), before asking your customers to foot your bill. This situation did not just happen overnight, and both PRT and the Board should have been proactive and working to fund the organization years ago, for the long-term and not relying solely on government and/or Covid funds, which have run out, to get solvent.

Other comments (bus and rail service reductions):
Pittsburgh continues to attempt to build itself into a modern, metropolitan city. No modern city across the world lacks the access to public transportation that Pittsburgh does. To build the prosperity and beauty of our communities as well as continue to attract visitors to the area, we **must** prioritize improved access to public transportation. It is absolutely absurd that cuts and reductions have been proposed when there are already access issues in our area. We must do better.

Other comments (bus and rail service reductions):
When i first moved to North Baldwin there was at least 3-4 different buses that ran out that way, now we're down to 1 bus, ONE!!!! that dont even run on the weekends!!!!??? And you want to take it out of north baldwin completely, that is insane! I have to walk all the way up to the 51 carrick on the weekends JUST so i can get to work and the grocery store, because you cut all of our transportation. That is a 2N/A-3N/A-4N/A min walk for people that need to get to work, doctors appointments, grocery stores, etc... If ANYTHING you need to ADD more routes/run times to north baldwin ESPECIALLY for the weekends, my area is loaded with elderly, work commuters, non-drivers, etc..that heavily rely on bus transportation to get anywhere and we already struggle with the little bit of bus that we do get. You need to eliminate routes outside of the city. Like WHY do we have a bus that goes all the way to BEAVER county??? The bus fare continues to get raised but yet the routes continue to get cut/eliminated, it dont make any sense? Where is all this money going?

Other comments (bus and rail service reductions):
Cutting critical service to entire neighborhoods of the city is not a productive way to move forwards. I must say I am not skilled in these fields, however I still have strong opinions about leaving people without any form of transit.
I believe that eliminating most flyer routes that can be seen as redundant with alternatives (Such as the O12, 51L, and P7) is an alright move. However, some others (such as the 19L, P1N/A, and O5) are the only services for people who live along their routes.
I understand most of these cuts were likely listed as they were the fastest way to recoup some revenue, however they will only drive more people away from transit. I fear that cutting even more from the already mediocre coverage area will continue PRT's spiral into financial ruin and that likely, without both intervention and better management, we will be having this same conversation about system-wide service cuts in a few years or even a bankruptcy
I also do not understand the reasoning of launching the Bus Line Redesign only to do a 18N/A U Turn and scrap the entire project. I believe, if PRT does not get funding and cannot fix their deficit, they should instead rework the entire transit network from the ground up. The Bus Line Redesign is inherently a good idea, it's evaluating how he changes in Pittsburgh's population and attempting to make service more accessible for new markets.
If I had my way with this system cut, I would be more inclined to completely scrap the whole bus system which we've been using for decades now and redesign it with more efficient and competitive bus routes that will still serve people and neighborhoods, just in a different way.
Once again, I am not an expert on these matters and I believe money can be saved in other areas as well. PRT has a long history of scrapping every bus it no longer needs. A second-hand market exists for these buses that may be able to rake in some extra revenue (Westchester Bee-Line is an example). In addition, although I support the use of electric buses, I believe that PRT must part ways with them to save costs on labor, time, and training. It is only a 1-time gain of money to sell off equipment, however the electric buses being out of the fleet would help standardize it.
PRT stated that there would be no employee cuts and I simply do not believe this. Going by the numbers of the cuts, PRT will cut two divisions (Ross and Collier). This would mean they have to shrink the fleet size by at least 12N/A buses. After these two cuts are tallied up, this will lead to an unavoidable layoff of many employees. I also believe, unless contracts specify otherwise, that PRT should focus on making their vehicles cheaper to operate and maintain and not attempt to replace vehicles once they reach their minimum retirement age or mileage unless the vehicle is too costly to repair (damaged in an accident or suffered a major engine failure). I believe the fleet is now standardized enough that we can weather a few years without a new bus order and keep the ones we have running.
All-in-all, although I would like to say no cuts at all, I understand that the funding situation is dire. I do not oppose a fare hike, however I do not want the fare hike to be paired with the loss of service to several neighborhoods. Redundant bus routes can be eliminated or have service reduced to rescue less-traveled but still vital connections to our city. In addition, I believe that PRT should sell old vehicles on the open market (rather than only to scrappers) and divest themselves of the eight 4N/A' and fifteen 6N/A' electric buses, replacing them with clean diesel. This is not a time to experiment with new and rapidly developing technology when the agency is facing a funding crisis. I am fortunate enough to live along a bus route that will not be cut, however I want others to feel the same security that, even if frequency is reduced, they will have a bus line they can use to connect themselves to the rest of the city.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am a daily rider of the Blue Line SHV or Red Line SHV (prefer blue due to it being faster) and the proposed changes would DEVESTATE the community from cutting major south hills routes such as the eliminating the Silver Line and bus routes such as the 36 Banksville, severely cut back the 38 G and M Greentree bus routes. Also cuts on the REd Line would also devistate those people as well as a friend of mine who lives in Mt Lebanon rely on the Red Line to get her son to and from daycare and to her job in downtown Pittsburgh. Her backup buses are the 36 and 38M buses and with the elimination of the 36 and severe cuts proposed for the 38M, that would hurt her as well!! I do work in the strip district so I rely on the the strip district buses to get to my work location, the 86, 87, 88 or 91 routes!!! As for the other cuts and closing the Ross and Collier divisions, while I do not ride them, their elimination of service would be DEVESTATING to the areas they service and would become transit deserts I.e. people that don't have a car or are not able to drive for various reasons would be severly hurt and would have to quit their current jobs because they can't get to where they need to go!! Is this the reputation you want in the Pittsburgh Regional Transit community? Back when you changed the name, the slogan was a new name, new direction. Well I havent seen much in the new direction..unless you count the new direction as CUTTING service. As for raising fares, that would also devistate the riding public too and would increase the ongoing problem of fare dodging passengers that I see daily on the buses and trolleys that irk both PRT management and the bus and T operators!! Perhaps you should think about where you should be cutting. Maybe try cutting the senior managements salary including the CEO by 35%, see how they feel about that!! Because Pittsburgh NEEDS public transportation and buses to keep going to where they currently go!!!! So I am asking you t please rethink your proposed cuts to the public and what a BAD thing this would be. Also, you say ridership is down?? Well it will go down even more with these new cuts and fare increases! Doesn't take a rocket scientist to figure that one out!!
So please rethink what your doing and if this is the reputation you want for the PRT community, then so be it, but I think I speak with a large group of Allegheny County residents who OPPOSE these cuts and fare hikes!!!!!!
Thank you for allowing me to rant about my objections! I look forward to things staying the way they are or perhaps making cuts not as severe to the public and lowering the proposed fare increase and just maybe your passenger fare doging problem may go down instead of up because people need to get to where they need to go but don't have they money to pay cause it would be the highest transit fare in the USA and possibly the world!!
Thank you very much and hope you make the CORRECT decisions for the residents of the PRT riding community!!

Service change impacts (bus and rail):
Our bus service was cut many years ago and I was forced to find alternative transportation so I can deeply sympathize with the people that rely totally on public transportation.
Other comments (bus and rail service reductions):
Hearing about 41 bus route cuts from a CEO with $8N/AN/A designer glasses on and earning $29N/A,N/AN/AN/A/year is a tough pill to swallow. Seems to me she isn't worth that salary if PRT is deeply in the red.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
We should be expanding bus access to expand ridership. Incentivize people to take the bus rather than cars. Most people who work in Oakland don't have an option to drive and park somewhere unless they walk half a mile or more. Reducing or eliminating services will make traffic worse, increase demand for non-existent parking in neighborhoods like Oakland, and overall contribute to Pittsburgh becoming a less livable city. It is abhorrent that the city is not investing more in infrastructure that its residents rely on, and that proposed route eliminations will leave entire neighborhoods with no means of public transit. I urge decision makers to lobby for more funding from the state to not only keep PRT running but to expand service and ridership. People who don't take the bus currently opt not to do so because of the lack of predictability of service. We must focus on expansion and improvements, which will bring increased ridership and therefore more funding. Cuts and elimination will have a dire impact on drawing in new residents and visitors.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
While I personally am content with paying more for bus service due to my financial situation, and I am happy to support PRT by paying more for trips, I believe the fare increase will further reduce ridership and will lead to continued lack of funding for PRT. If it is the difference between maintaining and developing PRT and eliminating or cutting services, however, I would support a slight fare increase to avoid seeing these route changes which will lead to the ultimate demise of PRT.

OPPOSE: 28X AIRPORT FLYER (Major Reduction), 29 ROBINSON (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
1. For 28x, will having 2 zones fair help? For example, to Carnegie station has regular fair and to downtown/cmu (not thru Carnegie station) has express bus fair (this should help out of town visitors and pitt/cmu students/parents)
2. For 29. is it possible to work with other vendors and/or contractors to use smaller vehicle to serve after the cut.
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I live in Squirrel Hill, and I am a regular PRT rider. The proposed changes would have a small effect on me (my primary buses are the 61 series, 67, and 69, and I would personally be affected by the reduction to the 28X, which is my primary way of traveling to the airport), but would severely affect riders in other parts of the city. While the proposed cuts seem well thought out, we should vigorously try to find alternatives to making these cuts, because they would greatly harm the mobility of people who live in the affected areas, and would also make it difficult for people like me to travel to these areas when necessary. I would support an increase in City income tax or another local tax instead of implementing these cuts, if PRT is unable to get appropriate funding from the state. In the longer term, I would also strongly support a property tax reassessment, that could distribute tax burden more fairly and facilitate a future property tax increase.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I personally would not have a problem with paying a $3 fare, but it's clear that low-income riders are struggling with PRT's already high fares. I was having an unrelated conversation with one of my clients this past week, and this person casually mentioned that they needed to keep our meeting within three hours of when they first got on the bus (their ride to get to me from Carrick took an hour and a half), because they didn't have enough money in their bank account for the return bus fare!! Outside of Oakland, where no one with a university ID card thinks about the cost of bus fare, people are very stressed about how much it costs to ride the bus. I understand that fare increases could be part of a broader plan to stabilize PRT's finances, but this should be at most a short-term patch. PRT needs to commit to a long-term plan to get fares to a more reasonable level (around $1) for low-income riders at least (because the fares are already at a level that is burdensome), if not for everyone (because this would motivate increased ridership and reduce car traffic and pollution). If PRT implements the service cuts described in this plan, the universities should be required to dramatically increase their contributions to PRT's budget - especially because the service cuts specifically avoid the areas most important to the universities.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
I live in Bethel Park and rely on the Silver line every weekday to get to and from work to Highmark Health, along with many other citizens. Eliminating the Silver line will cause a major hardship for me. One of the reasons I live and work where I do is because of the service PRT offers. Instead of eliminating the Silver line, Harrisburg needs to invest more money into it to better serve its community.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Manuverability
Other comments (bus and rail service reductions):
The bus and rail service is the only way I can access most of the city. Limiting service to only peak commuter hours and cutting lines would dramatically cut my freedom of movement and prevent me from attending classes, job interviews, and potential future work. On top of this, cutting service will make traffic when driving worse across the city. If money is the problem, and I understand if this isn't in the budget but I want to mention it anyway, why not run a rail line from the airport to downtown then to the universities in the hill district, then through Squirrel Hill or Shadyside out to Monroeville. This would give a viable alternative to the multitudes of commuters coming in from either side of the city and more than likely have enough service to fund most of the system on its own.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If fare increases are the only way to keep the current level of service then so be it.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I'd "be able" to get to destinations -- but this is of course a major disruption for a city's public transit system to *decrease* when it needs to expand, increase, and improve. I know the situation is dire, but we need to find the funding!
The 28X Flyer is the only public transportation option to PIT. It needs to run more frequently, and extend least to Homewood/Thomas Blvd (as previously)!

Other comments (bus and rail service reductions):
Keep all buses in the early morning so people can get to work if some buses aren't busy midday then make the times longer then start them back up so people can get home for work we pay the highest in the country to ride the bus and cut buses and raise the fair in not acceptable that's not fair to the people who ride the bus for their only means of transportation. There has to be a better way to fix this problem.

I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
There already is a problem with no service to South Fayette, but eliminating the Bridgeville routes, airport routes and Robinson/Coraopolis routes completely cuts off our family from transportation to school and work. We have two cars for six adults, and two of the adults do not drive. It's already a challenge just to get people to Chartiers Street to get a Bridgeville bus. Don't eliminate the routes! Raise the rate, if necessary. It's cheaper than a Uber or Lyft or Taxi twice a day!
Also, the buses come to Bridgeville to the bus garage—so why can't we bus to and from Bridgeville?
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If rates have to be increased to maintain the routes, so be it. But don't raise the rates and eliminate the routes!

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
In order to drive increased ridership, Service needs to be better, buses need to be more frequent, and routes need to expand. Not cutting routes and making buses more infrequent. This will cause a death spiral for PRT as more people get forced to buy and drive cars.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I use the bus and trolley to get to various points through the community of Bridgeville, PA, all the way to Pittsburgh, PA. Cutting service would make life a lot harder as far as making medical appointments, getting to work, and wanting to do leisure activities. The buses are already hit or miss in certain locations but cutting services would make wait times unreasonably absurd and some people would have no way to get to important places.
I also have a cousin that also relies on taking the Silver Line T to Pitt's campus and other places that she need to access. Eliminating an entire line would deny a lot of people a chance for a more accessible way to get downtown. Not to mention all of the events that occur in the city like sporting events, Picklesburgh, St. Patty's Day, etc. There is going to be an NFL Draft next year. Doing something like cutting service time for the T and bus would be a disastrous decision on so many levels.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I'm not crazy about increasing fare service because I believe it is too high, but I would sign up for a slight increase if it meant not dramatically slashing wait times.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
It would be a disaster to cut the only bus for Brookline, which is the 2nd largest neighborhood in the city and has no reasonable options for getting downtown (or to the rest of the city) without a bus. Brookline is separated from the rest of the city by a tunnel, mountain, and bridge, none of which would be possible/safe to walk or ride a bike through/over. We are part of the city and pay city taxes, so we should have access to the city, including downtown and Oakland, using public transportation. Many people cannot afford to park downtown on a regular basis and downtown does not have enough parking spaces for all of the people who would need to park there if bus services were cut. Furthermore, if bus service to downtown is cut (or reduced) for this many neighborhoods, it will destroy the businesses downtown and greatly contribute to the decay of our city. This basic service of a bus system must be preserved.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Higher rates would make us the most expensive bus system in the country. At the same time, IF bus service is maintained in my neighborhood, I would be ok with slightly higher fares, as proposed.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
First, why would you propose to increase fare and drastically reduce service the same year?
Secondly, why eliminate the 26 and greatly decrease the 27? People depend on mass transit to get to work and around town for all needs. This proposal will handicap people in the city and increase homelessness as a result of people not being able to get to work. There has been free rail service to and from the stadiums and science center for years. Why not charge those people to save service. Each area needs reliable service to town and other neighborhoods.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I strongly oppose the proposed elimination of the PRT Route 14 (Ohio Valley).
Jobs would be lost-especially at Heritage Valley-Sewickley, medical offices and hospital-as people who rely on the bus to get to work would lose transportation access.
The Ohio Valley bus line (#14) travels though the heart of Edgeworth/Sewickley/Glenn Osborne boroughs on Beaver Road and is the only PRT bus service we have.
As a senior citizens, my wife and I rely on this bus service to travel round-trip to various destinations including Downtown Pittsburgh, etc.
I am employed part-time by a Downtown Pittsburgh employer. At times I am required by my employer to work Downtown.
I most certainly use the cost-effective PRT bus #14 Ohio Valley for my round trip Downtown transportation, avoiding the use of my private vehicle and avoid paying for costly all-day Downtown parking.
I would greatly appreciate the decision to continue the PRT bus #14 Ohio Valley which is the only long-term round-trip bus line serving: Ambridge in Beaver County, all three of the Sewickley boroughs and the Western Allegheny County communities along the Ohio River Boulevard with the destination of Downtown Pittsburgh.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Due to inflation, PRT cost increases should be fairly adjusted for PRT fares.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I don't know who came up with this plan. It totally cuts out communities on the West side of town. Ridiculous! Don't part of our county taxes support the PRT??? Maybe PRT should manage their budget better Instead of wasting it on a irrelative name change! And counting on our state tax dollars to build them out?
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The cost of a round trip into town including drivers pay and benefits, fuel, and maintenance should pretty much be the same if the bus is empty or full. Maybe you should consider cutting fares to get more riders Instead of raising them and losing more riders. $3 x 10 riders =$30 a trip. $2 x 55 riders= $110 a trip. Do the math!

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
Except for eight cousins who live in other states, my entire family is deceased. I had a stroke 6 years ago that weakened my right leg so I walk with a cane. Osteoarthritis also affected my right knee. Add lymphedema to the list and walking isn't fun anymore. The latest diagnosis is pigment disbursement syndrome that's affecting my right eye. Public transportation has become increasingly important with age.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would have to make decisions about whether to pay for ACCESS or other essential expenses
Other comments (ACCESS fare increases):
Have you heard about the tariffs war or do you live under a rock? Finances became worse after the pandemic. This includes utilities and taxes jumped up $50 a month each. Did retirement income jump up with them? Of course it didn't. Seems like you people just stole more in property tax after you were told not to. What did you do with it? I used to work for a county mental health program. The people there are living their entire lives from tax dollars and refuse to work even though they are capable. Go make them do something if you want more.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
If the fare increase is needed to keep the routes, then fine, do the 25 cent raise. It's just unfathomable that had a fare increase in 2N/A22, spent a plethora of funds to fix the silver line, spending an inordinate amount of funds and time to fix the downtown stops, and receive public funds. Cutting the silver line and the bus lines, especially after the cost of your "rebranding" reflects nothing short of greed and no actual care for the people your provide services to.

work and access to a medical facility
Other comments (bus and rail service reductions):
Do not cut any bus routes. There are people that rely on the bus in order to get to and from work or medical care. The 41 (Bower Hill) is vital to both these things. there are 6 nursing homes and a major hospital (St. Clair) along this route. There are people who ride the bus all of these, due to work or medical appointments. I work at Providence Point on Kane Boulevard. We are located across the street from Kane Hospital (a nursing home). I know for a fact that there are many employees who take one or more bus to get to and from work. There are employees who either don't have a car, license or have no other way to get there. Think about what would happen if you were to eliminate this or any of the other routes in your proposal. The other factor is that my mom lives on Bower Hill. She lives in a household with her two brothers and two other family members. The three of them are all senior citizens two of which are on disability. My mom is one of the primary caregivers to her brothers and rely on the bus to get where they need to go. My mom and my sister also have a primary care doctor at St. Clair hospital. Consider what would happen if you did eliminate or alter any of the routes that you want to change. All you are doing is making it harder for people to do what they need to do on a daily basis. Thank you, in advance, for considering what I have written her.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I don't think that people will have a problem with fare hikes as long as you keep all the existing routes the way they are.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
My mom and my uncle use access to get to places that the bus doesn't go to.
Please indicate if you oppose or support the proposed ACCESS fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (ACCESS):

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
PRT rail and bus services are vital to a great number of Pittsburgh residents, including myself. I have recently graduated college and entered the workforce. I do not own a car, which allows me to save hundreds of dollars a month — but I have been able to live and travel reliably without a car only because of our public transit system. I take the 48 or the 51 downtown to catch the train to work, and I use the 1 and the 2 to visit my family members outside of the city. Aside from myself, suburban and limited PRT routes are essential to thousands of people who cannot afford a car or are unable to drive, and use these services to travel to the city to work, shop, or go to school. As well, these cuts have the potential to negatively impact the economic environment of Pittsburgh — an extensive public transit system is attractive to tourists, such as those that may consider coming to the city for the 2N/A26 NFL Draft. Additionally, a lack of bus and rail service after 11pm has the potential to lead to an increase in drunk driving, or a decrease in activity at businesses that serve alcohol in the evening or at night. Overall, I believe that cuts to our bus and rail services hurt our city, its businesses, and the people who live here, and I hope that alternate solutions or less extensive cuts will be considered.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
People rely on these services, for necessities of life - work, school, childcare. Not everyone has a car. Those who choose public transport over their private vehicle will be forced to add another car to the roads, which are already clogged. The solution is expanding, not reducing, public transport.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
2-3 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
Shopping
Medical care/appointments
Social activities
Religious activities
How do you identify yourself? Select all that apply.
White
What is your age?
55-64
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I rely on bus to get to work, especially when it's raining and I can't travel by bike
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
I make about $13/hour, paid by the state, as a caregiver, and take the bus to my main job. The increase would make my bus fare over 10% of my take home earnings on a typical workday. I would likely have to quit that particular job, leaving the person I work for with no in-home care.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
You should look for cutting your expenses first before cutting the services. I have read an article that showed approximately 7N/A per cent of your annual budget is going towards pay and benefits. That's outrageous. PRT's goal is to serve the people and not give lavish pay and generous benefit to its employees.
You should also reduce your operating expenses. I observe the construction projects of PRT. At every job site two people will be working and two are standing. They walk and work very slowly. None of your operations are efficient.
No, I will not ask the state government to bail out this inefficient company. You should find ways to reduce salaries, let go employees and work efficiently.
Remember, the snake cannot eat its own tail forever and it won't be too long before it realizes that!!

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
The amount of money each of us spend annually for riding the bus/rail/incline services is amounting to what? If there are 1N/AN/A,N/AN/AN/A people riding the bus that spend at least 12N/AN/A a year gives a total of 12N/A million dollars, so where is the money going? That does not even include advertising capital as well as funding that is still received. I just do not understand where all this money is going.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The 41 and 31 bus lines are the only public transit that serves Bridgeville. They are important to keeping the community connected and mobile, and an important connection to the rest of Pittsburgh.
More broadly, our transit system is so important to do many people. I don't think I need to explain to whoever is reading this how important it is, but hopefully my comment can help push for funding to avoid it restore the coming cuts.

Other comments (bus and rail service reductions):
Ending service at 11 pm would have the following impacts:
The proposed service cut changes would impact inidividuals working in healthcare working shifts. Many of the individuals the work shifts and are essential to helathcare use the PRT. The service cuts would impact the ability for the employee to work and also impact the healthcare facilities that provide essential services to the community.
Ending service at this time would also impact those attending sporting and other events in town that end after 11.
These cuts would have negative financial impacts on tourism in the city for those that attend events
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
You need to develop a better way to collect fares from all riders. I have frequntly been on the T and observe people not paying, espiceially when it is busy. The drivers will open all the doors to let people on/off and not collect fares. I have also seen people walk past the fare booths wihtout paying. Most other cities I have visited make you pay before entering ot exiting the platform area. I am not sure why PRT has not done this at the major platforms.

Also eliminating the use of cash on the train and only allow the uses of passes, cards or apps would improve effiiency and the collection of fares.

Would be interesting to see how much money you are losing by not collecting fares.

I would have to move to another home/dwelling where transit is available
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I expect any service cuts to hurt the local economy, and the system is already badly in need of more investment and expansion of service. If state legislators care about and take pride in Pittsburgh and western PA generally, they will pass a budget that not only meets but exceeds PRT's funding shortfall.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Other comments (bus and rail service reductions):
Accountability for the expenses and their priority since 2N/A13 regardless of where the money came from. I have taken the T line for over 5N/Ayrs. My stop was the first one past Wash Junction. I would have to pay $1N/A.N/AN/A more on a money pass just because of being one stop away. The parking lot at Washington junction is basically a joke for those in the south hills. Park at the South Hills Village, why to go further in the opposite direction to get to town not practical.The same situation with the parking lot at Mt. Leb station. The lot in Castle Shannon is not practical, by driving there to park, you could already be behind in waiting for a T- to come. Over these years I have watch the inefficient process of seeing the stations being painted over and over that ridiculous color of teal and purple while watching equipment sitting behind fences rusting away. You are asking the public to pay the price for the inadequate management of the PRT. The thought of cutting the silver line in the South Hills is uncalled for. Wake up- you have a continuing aging population, what exact transportation do you expect them to use. Pittsburgh is a Sports Town, you decided over the years to basically say we do not want fans to take public transportation. By cutting the hours after 11:N/AN/A, overtime games, you have to leave early as it is due to the current cuts in T service. The public is paying money to see sport events, shows at the cultural district First Night, ect .
We are to accept these conditions- to lose out having leave early just to get home.The city of Pittsburgh has become an embarrassment. Improvements to Mellon Park, Market Square- what is the point if the public has a hell of a time just to get to town. Parking in town really is joke. The female population with the shooting and increase crime in downtown Pgh does not present any enthusiasm about problems with public transportation. The city is hurting. We are fortunate that we have sports teams, we lose any or all of them it will not matter about public transportation. The other issue is health care. If not the riders, consider those that may take multiple means of transportation, walk, the T and then the bus to get to Oakland. You eliminate routes to the south hills, you are reducing the quality of health care providers for all. Why would any health care person go though hoops to work in Pittsburgh, Oakland. Then you get to close hospitals next. There needs to be an overhaul of the PRT. News reports would state about temporary changes that were to result in improvements. If you ask most riders the basics, provide routes in a timely fashion to get them to their destination on time. The PRT started causing problems when they eliminated the station in Castle Shannon and has gone down hill from there. We are living under an old system that unless you are going to build more bridges, the T for the South hills of pittsburgh only has one way in- the tunnel at station square or from Allentown to cross the same bridge, that basically looks like it could fall in the river at any moment. If the bridge goes, you might as well cut off the entire South Hills of Pittsburgh. The blame goes to management. They need to look at themselves as to how we got in this situation. This did not happen overnight. Management over the years watched this happen and just let it dissolve. Now we want to blame funding, covid and anything to deflect that it is their responsibility to figure it out. Do not have the city, the public suffer for management mistakes. The city of Pittsburgh deserves better. If we turn in to a ghost city what a shame and embarrassment to the nation. You want to attract young people to the city. We're do you expect them to live if they cannot have public transportation to become a vital part of the population. So so sad. I never thought that I would not be able to go to town, for business, health or entertainment due to transportation or the steady increase in crime.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail service reductions):
The 28X is widely used by students in the east end and downtown, who wish to have a more environmentally friendly ride to the airport and to save some cash. Universities are vital to our region's economy; let's give the students a free ride to the airport!
The 71 and P71 routes are the routes directly serving the Swisshelm Park neighborhood. Eliminating them would leave an entire corner of the City of Pittsburgh without a transit option. Many families and work commuters live in this neighborhood and rely on the bus for daily transportation.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
When I went to Duquesne University in 2N/AN/A4, service was so comprehensive that I really had to wait for a bus and was able to get anywhere in the city I needed to go.
Since then, so many schedule changes and service cuts have occured that it's affected what type of jobs I can work, what areas of town I can work and live in, the hours I'm available to work, and the amount of hobbies and other social engagements I can have.
My life has become rather limited due to the already extremely limited service that currently exists.
The proposed changes would make it nearly impossible to reach quite a few areas of town that I frequent. The cost increase may seem minimal but the cost has DOUBLED in recent years. The lack of transfers available for cash paying riders who live in an area without a kiosk to refill their connect card is even MORE cost prohibitive.
People rely on public transit to be able to live a full and engaged life in our community and this would sequester many neighborhoods that don't have a varied places of employment or basic amenities. The citizens of the service area deserve a way to get to grocery stores, doctors, and workplaces. Everyone deserves the dignity of independence and this would remove that for a lot of people

Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
PRT needs to have a better way to collect fares. Every other city with a rail sytem has turnstiles to ensure payment. I often ride the South Hills rail and its not uncommon to see 1N/A+ riders from Washington Junction not paying on a weekday and on a game
day that could rise to 2N/A +. The gate at the end of the station is wide open on the inbound side and masses of people enter through there avoiding paying. All doors open and people just board the train esp if there is noone at the booth. Outbound, all doors open and enmass people exit and if there is someone at the booth, still not sufficient to get people to pay. Turnstiles on and off before entering/ exiting any station would prevent this. Most were remodeled and this would have been the ideal time to implement .Those who do pay are once again punished by increasing fares and/or reduction in service due to the lack of concern/action from both PAT in the past and PRT now for fare collection. Also could increase revenue by charging a flat fee within the city.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
There are many ways to decrease the budget and fund the public transportation system. We should stop the air condition system, which only make people dizzy and sick during winter, especially when they are wearing heavy coats. We should also charge tax to all car drivers who drive past downtown and Oakland to fund the public transportation system. The wide use of private cars has endangered public welfare, causing traffic problems and endanger pedestrians.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
While I now use a car sometimes for work or transit outside of allegheny county, I prefer to use the bus when possible. I would have in the past had to move or switch jobs, or greatly reduce when I am available to work. Additionally, I have many friends and family who would struggle to get to work the proposed service cuts. Many of my co workers also wouldn't be able to work as many hours, or would have to get a new job, with the proposed cuts and end of service at 11:N/AN/A PM. The service cuts would make it harder to visit downtown (where I almost always take the bus because I don't want to deal with traffic or parking).
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
While I am not happy about a proposed fare increase, I would rather have the regular fairs increase than have service cut.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
In order for Pittsburgh to thrive, meet its ecological/environmental goals, and support the needs of the residents and visitors, PRT should expand coverage, not eliminate it. Large scale events such as the Pittsburgh Marathon, NFL Draft, various conventions and sporting events require expansive public transit access. Don't undo the major progress that Pittsburgh has made over the past decade! The traffic and parking situation is already terrible and the current infrastructure does not accurately meet the needs of the residents. I can't imagine what would happen if all of a sudden citizens and visitors needed to rely on individual cars instead of more efficient means of transit.
I'm most concerned about losing route 4N/A as it is the only bus route through most of mt Washington/duquesne heights. It already doesn't show up as frequently as is helpful. The loss of this route makes an already challenging to navigate terrain (hills) even more difficult.
Major reductions to 28x causes an extreme limit in access to the airport.
Major reductions to routes like G2, G3, G31, 31, 29, 22 remove access to the city from the suburbs as well as residents who travel on the Duquesne incline. Unless the solution is to put in rails throughout to replace these with trains, this cuts off access unfairly to the residents of Duquesne Heights, especially when combined with the elimination of 4N/A.
Cuts to the routes that serve business locations such as Alcoa, PNC Park, Nova Place, Allegheny hospital (15, 16, 17) don't make sense either.
Why was funding spent on a needless name change for PRT if you aren't actually going to support the whole region?
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
If taken in conjunction with the reduced service, you are jeopardizing the long term & short term success of the citizens of Pittsburgh. Basically PRT riders will be paying more but getting less.

I can afford the increases, but I'm very concerned from an equity perspective for the folks that can't.

OPPOSE: 1 FREEPORT ROAD (Major Reduction), 2 MOUNT ROYAL (Elim.), 13 BELLEVUE (Major Reduction), 16 BRIGHTON (Major Reduction), 28X AIRPORT FLYER (Major Reduction), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction), 87 FRIENDSHIP (Major Reduction), 88 PENN (Major Reduction), 91 BUTLER ST (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I rely on the 64, 87, 88, and 91 for most of my travel. This includes to work, errands, and entertainment. My spouse relies on the 54 for work and the other routes mentioned for errands and entertainment. I occasionally take the 1 to commute home from work if the 91 will not arrive in a set amount of time. Many of the people in the communities I serve (librarian) also rely on the 2 bus. My previous library relied heavily on the 13 and 16 buses. And the 28X is a resource folks need to reach the airport.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
We already have one of the highest fares in the nation. Increasing the fare will make it difficult for the folks who most need transit to continue to afford it, and the fare increase plus cuts will mean that folks who can afford other means of travel but CHOOSE to use public transit will look elsewhere. Public transit is a public good that must be funded!

Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
We moved here based on the availability of public transit. Cutting multiple entire lines would confine us to our home, as nothing is really walking distance with two small kids in the greater west end and we don't have a car. We rely on public transit to get everywhere during the week. The fare increase would feel reasonable if service wasn't getting cut to the bones in addition.

Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Bus and light rail services are a public service that are absolutely essential, and Pittsburgh has a very good system for its size. The proposed cuts would be disastrous for my life and the lives of many others, especially in underserved areas.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
2.75 is already a little bit high as transit fares go, and while the 3 dollar figure would make it more convenient to pay in cash, the vast majority of people do not do this. Assuming you take transit to and from work, that is 50 extra cents spent a day, which can be a lot for very low income people, who are more likely to need to use transit in the first place.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Please don't alter the 2 Mount Royal nor the P13. These are the only routes in my neighborhood that get me to Downtown where I get a bus to Oakland for my job. Having to take multiple busses every day is inconvenient enough and if the busses in my area are impacted, my commute to work will affect my ability to hold my job. I can't afford to park in garages nor does my job provide parking. It's Oakland after all, parking is extremely expensive and challenging. My ask is for a route that bypasses Downtown and goes from Mt. Royal Boulevard, over route 28, over the Highland Park bridge and towards Oakland. Fare hikes are also very unwelcome. I'm a single person responsible for taking care of my brother who has many health issues. My income is already stretched thin. Please reconsider these terrible propositions. They'll only hurt regular people like me.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
I already know my comments won't be taken into consideration. This is just a pathetic way for PRT to makecit looknlike they are placating to the public who's been supporting them forever. But, I'll offer my comments anyway. I am the sole income for myself and my brother. My brother lives with me and has a lot of health issues. He can't work and therefore my income is all I have to take care of living expenses for both of us. My commute to work makes for a long day as it is since I, like so many people, have to transfer busses. My cost of living is presently more than I can manage. If fares go up, I'm not sure where I can reasonably cut another corner in my household.

PRT just had a fair increase in 2022. Where did that extra money go? Why exactly would anyone want to pay money for PRT's proposed less services? Maybe PRT shouldn't have spent money rebranding and instead used the 2022 fair increases wisely.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I would just encourage PRT to keep in mind the socioeconomic statuses of the communities in which they are considering route reduction and elimination. Eliminating routes in areas such as Robinson or Ross where most residents own their homes and have cars is one thing. But reducing or eliminating routes in areas like Braddock will leave many residents with no other way to get to work or resources. And simply being able to move to a new neighborhood that still has routes is not an option for many people.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 74 HOMEWOOD-SQUIRREL HILL (Major Reduction), 82 LINCOLN (Major Reduction), P17 LINCOLN PARK FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to school, daycare, or childcare
Our school community would be harmed by service cuts as many of the parents of students use the PRT routes that come through Lincoln-Lemington.
Other comments (bus and rail service reductions):
While there is no great time to be cutting service, it is especially harmful now as the economy is heading into a downturn. Those most reliant on public transportation will be further negatively impacted.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
I am 67 years of age and I rely on public transit at ACCESS para transit services to get everywhere including shopping, medical appointments and social activities. If these service cuts go through it would greatly restrict my ability to get to needed appointments.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
We often ride the 64 and 93 to some medical appoints so that would be a large impact. Even if some routes are lightly used, if they serve neighborhoods where folks rely on public transit, I would encourage you to keep them.
ALSO, I realize it's a different cost silo, but it's cruel and ironic to cut service and threaten to increase fees when you are spending $6N/A+M to save 4 minutes on the Oakland/Downtown commute.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I work in downtown Pittsburgh in a health clinic and live in Verona PA; many of our staff use buses/subways to get downtown easier. While it's true that some drive to the city, most find it more convenient to take the bus just to save on parking expenses while going to work. However, these cuts will affect more people on a larger scale than what goes beyond imagination. Should these cuts happen it would not only affect our staff but the patients who need buses as a mode of transportation. These cuts would not inflict on a small scale but a variety such as people who no longer can drive a car nor afford one, they would have no way to get groceries from stores or send children who use public transport instead of school buses to get to school. They might even have to quit their jobs simply because they can't get there, which is inexcusable.
If the cuts were reasonable I wouldn't be reaching out like this, however there can and will be a major impact on the transit itself because there will be less people using any public transportation because they had no choice in order to continue their way of living.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
PPS students are reliant on public transportation starting in 6th grade. I live in Hazelwood, my daughter goes to school downtown. If the 52L, 53L and 58 are elimintated completely, she is now limited to the 56 or 57, which already have long wait times that may not coordinate when her school lets out. By cutting those three lines, you have removed any means of transit for those throughout Greenfield (no where close to Murray Ave) to riding the 93, another bus that only comes every 4N/Amin and now looks like will only be every hour.

Other comments (bus and rail service reductions):
Buses are sometimes the only means a person or family has to travel about the city, and cars are prohibitively expensive these days. Service cuts would compromise the livability this city is well known for. If cars are the only way many people can get around, and if they are still affordable enough to use on a daily basis, thousands more vehicles would clog our streets and pollute our city's air. Traffic would become a noose around the city, and respiratory-related illnesses would surge.
If the city builds a robust network of protected bicycle infrastructure, maybe there would be a meaningful mode shift away from cars. Buses are walking and biking accelerators, making Pittsburgh a great place to live especially when the service is frequent and dependable.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
While I will still have access to many neighborhoods via PRT busses, reduced frequency will make me much less likely to take the bus and instead push me and likely many others towards uber/lift or potentially even buying a car for transportation, thus contributing to traffic throughout the city. Losing trust in the PRT system would cause even less use of the buses, which would mean less income for the system if people don't use it.
I recently moved to Pittsburgh and have been proud to tell everyone back home that I don't have a car, because I can rely on the bus system. I really value public transportation and feel that a well-run and reliable system hugely improves quality of life in city living. It would be a massive step backwards to have cuts to the PRT system. Pittsburgh is consistently ranked as a great place to live, partly due to the public transit - it would be a massive shame to see this ruined. I am afraid that the damage would be irreparable or at the very least take decades to recover from if this important public infrastructure is put at such a massive risk.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
As a resident of Ross Township, I am not a frequent user of PRT services, as not many routes service where I live. However, my sincere hope is that in the future, PRT will be able to expand its services further into the North Hills. PRT's recent service reduction announcement moves in the opposite direction of the progress I would like to see.
I am also extremely concerned for my neighbors in the Pittsburgh region who rely on public transit in order to get to work or to access necessary services. I know many such individuals. In the wake of this news, many of them have been left scrambling to try and figure out a path forward for them to be able to get to where they need to be in order to continue securing economic security for themselves and contributing meaningfully to our region's economy and workforce.
I view this situation as a citizen who is extremely concerned for the future of our region. It is no secret that the Pittsburgh region, and Allegheny County, has been steadily shrinking in population over the years. As a region and as a Commonwealth, this is not a situation we can take lightly. Public transportation is a major part of our regional assets, and we need to expand the public transportation services and network in order to improve the livability and the attractiveness of our region to promote migration — especially migration of young people. As a young person myself, I know firsthand that access to public transportation is a major asset that folks my age consider when determining where to put down roots.
If these sweeping route cuts to occur, it will be one of the greatest missed opportunities and losses I have seen this region undergo in my lifetime. And frankly, this is a critical juncture where we simply cannot afford to take such a step backwards.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Much like a reduction in service and routes, an increase in fare for public transit will limit accessibility, which is the exact opposite thing we as a region should be doing. Increasing affordability and thus accessibility of public transportation is critical to encourage its use and ensure access to those who are the most in need.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
We need to enhance, not remove public transit. Powered trolley lines would be cheaper to maintain, would take a large load of the power grid overnight when replacing electric busses, is greener than fuel powered busses. The Busway would be an excellent start to this as infrastructure work wouldn't affect commuters.
Subways, while a long term project would prevent out of city commuters from contributing to pollution, would keep our streets safer and have less need for dangerous multi-lane stroads where biking infrastructure could be replaced without a full restructuring. This would also incentive tristate and WPA "tourism" an bring money into Pittsburgh since a stress-free, fast, and cheap method of commuting would be available. This also keeps the moods of Pittsburghers high and prevents us from leaving for greener pastures.
Defunding public transit actively works against Pittsburgh and her people.

Man
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These cuts significantly reduce the feasibility of me using the service
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
This would make Pittsburgh one of the most expensive cities in the nation for transit

My travel time would greatly increase
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating the silver line will mean my daughter-in-law who is vision impaired will have to source other transportation to another light rail transit stop. This will greatly inconvenience her as she already must walk to the Beagle stop at 6:3N/A am to go to downtown Pittsburgh and then catch a Fifth Avenue bus to her office near Mercy Hospital to be at work by 8 am.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
All proposed service reductions are preposterous at best and unthinkably cruel to constituents at worst. How this would even be considered acceptable or the logical next step in the face of a funding deficiency is beyond me and my fellow constituents whom I've spoken about this with. I have not encountered anyone feeling anything less than disgust and disbelief, whether they regularly use the bus/rail systems or not. To go through with these service reductions and fare changes would spread far past inconvenience for few; to go through with these actions would plainly destroy lives. Between parents with small children or elderly and disabled individuals utilizing the services, to college students being able to attend classes and extracurriculars affordably, to those of us relying on public transportation as our primary source of getting to work/appointments/volunteering opportunities, to folks stuck between refusing to drive while under the influence and the steep rideshare app costs, the question becomes: how could this possibly benefit our local economy and community? The answer? It would not, could not, cannot, and absolutely should not be attempted. To any politician or legislator in support of or intending to help these reductions and fare increases be accepted legislatively and put into effect, I would ask you to consider the lives, welfare, and wellbeing of your constituents, whether or not you want our vast network of hospitals and healthcare facilities to be appropriately staffed, how this may effect the student bodies and commitment rates at our various universities, or better yet—imagine yourself in their shoes. A significant portion of the Pittsburgh population does NOT own or have the means to purchase a personal vehicle. What will these people do? Relocate is the answer. If financials are your only concern, I'd advise you to take the local economy into account as well.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Less frequent service means higher chance of getting stranded or stuck places
Other comments (bus and rail service reductions):
The proposed service changes would render many neighborhoods totally inaccessible. I'm afraid that those who already can't afford to live within the city center will lose opportunities for work when neighborhood routes are eliminated or greatly reduced. Reduced frequency of existing lines will take a huge toll on already poor ridership rates.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Keeping the 28X flyer at its current rate of service is so important for Pittsburgh! At age 68 I am still mobile enough to walk to Murray Street and Greenfield Avenue, so I could get by without the 58 bus. It runs so infrequently I don't often use it anyway. Also I understand that cuts have to be made and keeping current service on other routes, especially the 93, is much more critical for my neighbors and the Hazelwood community.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I rely almost exclusively on PRT to get around Pittsburgh. I simply wouldn't be able to get to locations if PRT didn't service them.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I think the proposed increases in price are quite modest. I would tolerate even higher fares if it means helping avoid service reductions. That said, I understand that higher prices might inhibit many people from using PRT entirely, so I'm not sure to what extent it would actually help the overall situation, if it even would.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Good public transit is a cornerstone of a good city. When I travel, I use public transit to get around. Tourists having to Uber everywhere is embarassing, and that's to say nothing of the thousands upon thousands of residents who use transit and depend on it for their livelihood.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I don't like it, but I can tolerate it if it saves the current system. But it might strain low income users who ride transit more often.

$100,000 to $124,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Increased fares and decreased service is going to reduce ridership. The PRT is already in a pretty sorry state and further reduced service will make me quit using public transit.
We should be pursuing permanent statewide funding streams and PRT should be using its limited resources to lobby for this - NOT rebranding, marketing and advertising.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
This is more expensive than transit in world class systems like the MTA in NYC. My family can afford to pay a $3 fare and I'd support doing so if it meant we could maintain the system as it exists.

However, asking riders to pay more for less is adding insult to injury. A round trip to Oakland from East Liberty would be $24 for my family if we see a museum and get lunch and miss our transfer window. Paying for parking or using a ride share would be comparable in price or cheaper.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
Other comments (bus and rail service reductions):
Without the 14 bus, I would have great difficulty getting to work and medical appointments. I would have to rely on BCTA Route 1, which runs once an hour during the best of times and does not leave Beaver County on weekends at all. Otherwise, I would have to find a way to pay for rideshare services, which is difficult on my salary. This route is a lifeline to many people in Beaver County who work in Allegheny County and definitely can't afford to live there (especially anywhere near the city).

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
I rely on the PRT bus system to get to all of my doctor's appointments, and to get around town for any sort of shopping and entertainment. My life and work would be severely restricted if I were not able to take buses around town and even out of town to certain locations, such as to Sharpsburg where I work part-time as a teacher. I would not be able to continue substitute teaching at various local non-profits that I work with all around Pittsburgh.
On top of that, it would harm Pittsburgh's reputation compared to other cities. I have many friends in Buffalo NY, in Asheville NC, in Syracuse NY, and in Columbus OH. All of them consistently comment on how they wish they had a reliable bus system in their cities and that they could rely on public transit. They all comment on how their lives would be improved if they had a bus system like Pittsburgh's, and when I moved here from Syracuse, NY 3 years ago, access to reliable bus transit was literally a strong draw to Pittsburgh for me and was a consideration for me when choosing a city to relocate to after choosing to leave upstate NY. It would come to harm our local economy and reduce a huge advantage that our city has to draw more good citizens here who can come contribute to our economy in the way I have.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I support it to continue to fund PRT since I believe that those fare increases are somewhat minimal. I think that we cannot cut transit lines and also increase fare prices -- more money for worse service is ridiculous, and would be a harm to our local economy and to the livelihoods and wellbeing of hard working Pittsburghers.

Other comments (bus and rail service reductions):
I moved to my current home to have access to public transportation provided by PRT. Changes to routes will impact my ability to get to medical appointments and my ability to access other necessities. Living in Dormont has allowed us to get by with only one car for the family. We can only do this because of PRT service!

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Work or job training
How do you identify yourself? Select all that apply.
Asian
What is your age?
45-54
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$75,000 to $99,999
Including yourself, how many people live in your household? 5-6
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I appreciate the effort to keep fares at a manageable price for all who use and need transportation. This increase will definitely put a burden on some, however it's still cheaper than Uber/Lyft or parking in high density areas like downtown or Oakland. If we are increasing the fare to support services, we should look into ways to help keep it low for low-income individuals who don't have other means, even if that means making it a little higher for the others.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I don't drive or own a car. Although I live in Squirrel Hill, which is not greatly affected by route removal, the reduced service frequency would still make it much more difficult to get to events and appointments reliably on time, including medical care. Not running buses after 11pm would also be detrimental to people like me who take the 28X bus to and (especially) from the airport. People need a way to get home or to wherever they're staying without paying a fortune for a rideshare or taxi, and there are flights coming and going until around midnight.
As it is, it's already a bit of a headache to schedule trips to/from North Squirrel Hill and Shadyside with the low frequency of the 64. All of Squirrel Hill and Greenfield's grocery stores are small and/or specialized, and the most convenient drugstore to South Squirrel Hill is a failing Rite Aid that could close any minute. It can be difficult to navigate the sheer size of the Homestead mall as a pedestrian, even with the help of the 61D… so bus riders need to retain their access to places like the CVS in North Squirrel Hill, the Shadyside Market District, or even more optimally, the array of relatively new grocery stores in East Liberty that are currently a pain in the rear to reach from Squirrel Hill by bus. Don't make this problem worse!
Needless to say, I can only imagine how much worse it is for people living in neighborhoods and communities that would have their routes removed. If we must have changes in service, perhaps it would be better to implement some of the route adjustments and streamlining proposed in the draft restructuring of the PRT system. The draft had its issues, but it was better thought-out than whatever this panic plan is, and a second, scaled-down iteration designed for quick implementation could be effective.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I don't mind fare increases. To my knowledge, PRT fares have not gone up with inflation, so this is overdue.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
It is shameful that local and state politicians would allow our regional transit agency to fall off a cliff. Regional mobility will crater, congestion will rise, along with pollution, noise, increased cancer risks and stress levels for local residents, and increased traffic injuries/fatalities. These are the widespread, well-documented outcomes of neglecting public transportation and forcing people to live car-dependent lives. Even if you're a cold-hearted, fiscally conservative person, the economic benefits you gain from adequate public transit funding outweigh the significant drawbacks of car-dependency: less hours wasted in traffic congestion, more money saved in fuel costs, more people able to save money from decreased use of cars/trucks, more people able to reach essential appointments, work and errands in a timely fashion. The economic productivity of western PA will suffer greatly if our politicians fail to support us here and now.

Other comments (bus and rail service reductions):
Public transit is a vital lifeline for thousands across our region—including students, workers, seniors, and individuals with disabilities—who rely on buses and light rail daily for access to jobs, education, healthcare, and essential services.
Beyond its core utility, public transit is key to building more walkable, livable communities. A robust transit system helps reduce traffic congestion, promotes safer streets for pedestrians and cyclists, and contributes to a cleaner, more sustainable environment. These benefits support not just riders, but the broader public.
Pittsburgh is fortunate to have a transit system with a level of coverage and reliability that is rare for a city of its size. With strong historical infrastructure and community demand, we are in a unique position to build on this foundation—not scale it back. Now is the time to invest in expanding transit access, not undermining it through cuts.
Please stand with your constituents and protect the future of Pittsburgh Regional Transit.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The line that most directly affects me and my neighborhood is the 74. It is an interesting line, cutting through the heart of the struggling-to-revitalize East Liberty, connecting the far flung state VA facility in Lincoln Lemmington and the affluent Squirrel Hill neighborhoods. The proposed reduction of service is a direct threat to the ability to commute for the residents of the smaller and less economically advantaged.
It is interesting, in a meta way, that one of the options in the above checklist of effects is "I would have to switch to another mode of travel". Such as what, pray tell? A Bicycle? A scooter, if ever the bedeviled things were returned to the area? What does that do for the elderly? the infirmed? the under 18 seeking employment? Lets get sweaty on the way to work (for less than a living wage, most often).
The 74 is a major arterial resource, providing efficient and affordable transit to those least able to easily transition to another form of transport. Connecting neighbors and neighborhoods that are just _now_ starting to show signs of growth and recovery, after decades of neglect. Is it prudent to cut that support? Absolutely not.
The whole gamut of cuts and changes are of the same vein. Pittsburgh and the region struggle to make a name for themselves on the global stage. While this is not a unique challenge, Pittsburgh and the Port Authority have an opportunity to stand up and refuse to follow the same staid and ridiculous playbook. Cuts that will never be reversed. Reductions in service and raises in rates that will be justified down the road as resources to be redeployed - not returned to the pockets of the consumers.
People need to realize the mid to long term radical impacts these changes will have on mobility, employment and the perception of the region. This package of changes is shortsighted and detrimental to the region.
Please indicate if you oppose or support the proposed fare increases:

Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would describe my support as tepid at best, as those who already qualify for reduced fares will continue to receive that support. Those who do not, can likely afford the moderate increase in fares, what, ~10%? IF AND ONLY IF IT MEANS THERE IS NO REDUCTION IN SERVICE!

To do both is asinine and cruel. Show me reductions in the front office, corporate leadership and the like. Show me a commitment to pursuing cost cutting in procurement and engineering (Busses dont need screens and wifi morons, that is quite 2012). Show me a commitment to pursuing grants and resources from Uncle Ketchup instead of just the federal government. Hell, negotiate with the drivers unions on cost cutting efforts if it comes to it - any and all should be at least ATTEMPTED before impacting the consumer directly.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
THE 14 IS A MAIN STAPLE FOR INDIVIDUALS SPANNING A 1/4 OF THE COUNTY. ITS SPECIFCALLY UNIQUE IN THAT OTHER ROUTES THAT WOULD BE ELIMINATED COULD BE ABSORBED BY THE 14 WITH SUCCESSFUL TRANSIT. MANY OTHER ROUTES DO NOT ACCOMPLISH THIS. ALSO, THE 14 PROVIDES TRANSIT FOR ADA INDIVIDUALS WHICH I SEE EVERY DAY. RAISE THE RATE; REDUCE THE NUMBER OF TIMES IT RUNS, BUT ELIMINATING THIS ROUTE SPECIFICALLY IS QUITE FOOLISH. SINCERELY - RIDERS UP AND DOWN THE OHIO RIVER

Oppose or support specific reductions.
OPPOSE: 14 OHIO VALLEY (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
There are numerous handicapped and elderly patrons that rely on the 14 route. The 14 assists businesses in Pittsburgh, Industrial Parks in Leetsdale, and retail service companies near rte 65 in attracting employees from various points along PRT s route 14. The elimination of this route would Be hardship for ADA riders, the elderly, and employers. I STRONGLY suggest a more aggressive price increase to $3.5N/A or $4.N/AN/A instead of elimination of this vital artery

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
While I do not take public transportation- I have at least 7 clients that depend on it. It is there only means to work, shopping and medical appointments- At least one client must take 2 busses from 152N/A2 just to get into town to see his doctor. At North Hills Community Outreach, where I work we support our clients that take public transportation, by offering them discount and sometimes free bus passes to give them access to appointments and employment. They all are in a fixed income or no income and by cutting the routes and raising prices it is going to add on another layer of difficulty for them.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Answered above- as raising fares and cutting service is just not fair to those who depend on public transportation as their main source of independence and livelihood- options are already limited and further increases in cost and decrease in service will be a hardship for those that use the much needed service!

The 28x and 29 are how I transfer from downtown out to Robinson town center for work, with the proposed cuts those line will no longer begin downtown and would further increase my hour and a half commute to work if not force me to find another way to get to work or force me to quit. I'd be happier to keep the lines and pay more for my ticket(s).

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
2-3 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Shopping
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
35-44
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$75,000 to $99,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Pick one, how can you justify increasing fares for limited service? What are we paying for?
Please indicate if you oppose or support the proposed fare increases:
No comment on proposed fare increases

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am part of a queer/marginalized community theater group which chose our new location because of its location on quality bus lines. These cuts would severely limit already marginalized people from being in creative community with each other. Please make cuts elsewhere to fund the busses. The over-inflated policing budget for example wouldn't be necessary if we reinvested those funds into community services like public transit!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Making the poorest members of the community pay for the greed of the richest people is devastating. The people who have the power to fund this need to try walking a mile in the shoes of the people who would need to walk miles and miles with their bus lines cut. Thank you for listening

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Many people without cars moved to Trafford and Pitcairn because of the availability of public Transportation. They will have to move to be able to get to work, to school, to doctors, and more. Completely eliminating service will hurt everyone in many of the small communities that rely on bus service. Please consider keeping peak service times on all routes.
Also, if you are facing a deficit, do not start on pricy improvements like the Oakland to Downtown corridor that is not really a necessity and not that much of a time saver.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I mean, it's obvious this is very drastic cutting. I will at least have one bus left that can get me to my job. It doesn't run as often and I'm sure will be super crowded since it's taking on 3 other bus routes. And that's hoping the bus actually shows up. But I know so many others who won't have a bus at all. With the prices going up (especially for cars with these tariffs) even taking an Uber will be out of the question. And some jobs are trying to get people to stop working remotely? How are these people supposed to get there without service. Public transportation should not be luxury. It should be a right to community.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I work at Pitt so my fare is included with my work. However, I'm sure the increase will trickle down to us in some fashion through less pay.

Other comments (bus and rail service reductions):
Bus ridership can be improved by ensuring that are always visible on map. People especially can't wait in winter, uncertain of the bus will show because it's not on the map.
Run buses more often on major roads (e.g. Liberty, Penn) rather than through neighborhoods. Ridership will be improved if buses are predictable and come often, even if a slightly longer walk is needed.

Prefer not to respond
Which of the following best describes your 2024 household income?
Prefer not to respond
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
When I commute by car, it would increase my travel time significantly since I drive on popular bus routes.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It's already cheaper to drive and park downtown for events. This would make the math even more difficult even though cars do not belong downtown.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The bus service is an incredibly important part of Pittsburgh. Please do not reduce the bus service! So many people including myself would lose access to getting to school, work and accessing medical care

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These transit reduction will massive impact the quality of life for those living in the city and have a huge impact on the most vulnerable community members. It is also a massive reduction in transit options that will increase traffic and Pittsburgh's carbon footprint, especially with the NFL draft coming to Pittsburgh in 2N/A26. Please seek out more funding to continue to operate without any cuts this is a disastrous decision.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Cutting the 4 bus would significantly impact all of Mount Troy and Troy Hill, with no other busing options available. It would leave these two neighborhoods STRANDED. With as crowded as I see this bus line everyday, it is evident how crucial this bus line is to servicing these two neighborhoods; they would both suffer. As a resident of Mount Troy, we would become an inaccessible neighborhood and no longer be able to get to work, shop for essentials, medical appointments, social events...virtually cut off from everything else in this city and our daily lives. How can we cut an entire route with no other options? Many people cannot afford a car and this decision is in direct opposition to PRT's mission.

Oppose or support specific reductions.
OPPOSE: 58 GREENFIELD (Elim.), Y49 PROSPECT FLYER (Elim.), SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I live in Greenfield with several roommates. We're all struggling young adults and many of the proposed changes would be absolutely detrimental to our day-to-day lives.
The elimination of the 58 Greenfield route would be a serious loss. We live at the top of a very steep hill, and it's a 6-7 minute walk down to Murray Avenue to multiple other bus stops, but there is a stop for the 58 Greenfield within a block of our house. Though the walk up the hill from Murray is relatively short, I have a bad knee that gives me hell due to the how steep the hill is. Being able to ride the 58 saves me a great deal of pain and discomfort. In addition, while looking for a second job, it's apparent how restricted my options would become if the 58 was no longer in service.
One of the largest issues, however, is that buses are proposed to stop running at 11pm. Myself and multiple roommates rely on the bus system for transportation to work. We also work jobs that require us to work late enough that given there is no bus service after 11 pm, we would be forced to pay for a service such as Uber or Lyft to get home. As you can imagine that is not financially plausible, especially in this day and age.
I appreciate the hard work of everyone at Pittsburgh Regional Transit, I consider myself a fan of and advocate for public transportation for many reasons. Thank you for your dedication, and I hope you are able to better understand the possible effects the proposed changes would have on the people of Pittsburgh.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The fare increase would only add to the outrageous financial stress most people are experiencing these days. An extra 25¢ may not seem like much, but it adds up over time. I know my circumstances are not universal, but I also know how common it is for people that rely on public transportation to already be facing financial trouble.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
The changes will also impact my neighborhood bus line (19L) which my family uses to attend events downtown.
Other comments (bus and rail service reductions):
I work at a local workforce development agency. Many of our clients (low-income job-seekers) are already hindered by an inadequate public transportation system and the proposed cuts will only exacerbate the situation. Our clients require buses to attend interviews and job fairs, get to work, and maintain employment. We can't be a region that promotes workforce development to drive the economy and simultaneously make cuts to the infrastructure that supports employment.
Please indicate if you oppose or support the proposed fare increases:

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
It is simply appalling to me that the PRT would simultaneously slash services *and* raise prices. There will be entire neighborhoods without reliable public transit. Service is already substandard at best, but to cut entire lines, reduce service times, *and* have the audacity to ask us to pay more for worse service is simply absurd. I am deeply, deeply dismayed at the proposed changes, to put it lightly. A fare increase alone would be understandable, if a bit harsh on my wallet, but these changes are draconian. Additionally, cutting all service after 11 pm would be disastrous and callous - I work downtown at a hotel, and many other agents rely on public transit to get home. What are they supposed to do when they get off their 3pm to 11pm shift? Are they supposed to now call taxis and Ubers and spend 2N/A-3N/A dollars every single night they work? In short, I am outraged that the PRT would even think to go through with these changes. Poor service is one thing, but daring to ask us to pay *more* for *less* is beyond callous. I sincerely hope you come to your senses.

Other comments (bus and rail service reductions):
I depend on light rail to get to downtown, there is not enough parking and walking to a bus stop is not safe. I'd have to take a mon valley which does r run frequently. You've made all these updates to the platforms and ridiculous marketing changing your name and hanging signs about pickles riding the Train. And upgrading millions of dollars into castle Shannon.

Prefer not to respond
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
It is completely insane to cut off many neighbors from the city. So many people use the busses to get to work. Personally I use two busses and if this proposition goes through I will lose my first bus because of where I live. I can't afford to move to where a bus would pick me up. I can't afford to use a ride share to work every morning. I would have to quit my job and I'm not sure where I would work because my main transportation to the city would be cut. Not to mention if I somehow found a way (miracle working) to get on the one remaining bus that connects my neighborhood to the city that bus would take immensely longer because of the amount of people riding it. There is absolutely no way to support the city if these cuts go through. You are hindering instead of helping.
I would have to completely stop using PRT if these cuts go through and I know there are other people in Pittsburgh who would be in the same boat. If I don't have my first bus to the city I can't get on my second bus. These cuts would be detrimental to the already diminished public transportation system in our city.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Busses are supposed to help people in need to get to places they need to go and the $0.25 increase on one fare might seem small but that's $65 (at least, if a customer is riding at only one transaction per day) a year that someone could be using on something else like food or a bill.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 26 CHARTIERS (Elim.), 28X AIRPORT FLYER (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am changing careers soon and have planned around the convenience of the 28x airport flyer. Without it, I would be forced to commute via car which is an abysmal and costly option. Busses and rail are convenient and imperative for a functioning urban area, it is a failure of policy not to both fund transit and ensure accountability of transit services.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
As long as fares reflect no change in the profitability of the service (or specifically admin/executive earnings) then increase is acceptable. Transit is a service that costs money, but frankly it is a utility service and should be funded that way.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I wish bus and rail options would be more plentiful. Instead of focusing mainly on commuters and students, if it was geared towards helping residents of the city get to other areas of the city, it would be much more useful.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I would prefer to use the bus to come to work everyday, but the current price point is much more expensive then just driving. It is frustrating that this public option is so out of reach and also seems to go against the goals of reducing climate change and lowering street traffic in the city. Public transit is a public good and should be protected as such.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I rely on the Ross Flyer O1 to get to work Downtown. This is one of the only ways to get downtown from the North Hills/Wexford area and this lot immediately goes into the HOV lane, which is a perk. By eliminating this route, it would not only heavily inconvenience so many but add to gas cost, pollution, time, parking, and traffic. Please DO NOT get rid of this service.

OPPOSE: 12 MCKNIGHT (Major Reduction), O12 MCKNIGHT FLYER (Elim.),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to school, daycare, or childcare
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The proposed bus reduction would impact my son's ability to get to school (Point Park) as he relies on the O-12 bus to get him to class on time in the morning. Port Authority recently spent over $3 million dollars to upgrade the McCandless Park & Ride. Eliminating one of the bus routes completely and severely curtailing the service of the other route does not make financial sense.
The final point is that local Federal workers have been forced to return to the office but will potentially be left with very limited public transportation options if these reductions are implemented.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Work or job training
Medical care/appointments
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
35-44
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? More than 6
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Pittsburgh is the best city to live in in the USA right now. These cuts would be devastating.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I think the phrasing of the prior question of only asking for personal impacts misses the systemic level of cuts. People don't always know where they will need to travel and greatly reduced number of routes and more time between routes will obviously create negative impacts and ripples across the system.
We need to work with the legislature to find reliable funding sources to ensure all transit systems across the state are appropriately funded and so that we can not only maintain, but expand service. The trend over the last 2N/A-3N/A years is a loss of service and a subsequent loss of ridership. To reverse this trend, we need to provide comprehensive routes at higher levels of frequency to increase ridership.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The people who most reliably use transit are low-income people who cannot afford to have fares increase, even if they have reduced fares. Low-income folks and people with disabilities often cannot afford cars or cannot drive so increased fares will have a disproportionate negative impact on them. Meanwhile, people who have cars often compare transit costs with parking and gas to see which is cheaper, so increased costs will likely reduce these customers' use as well.

Other comments (bus and rail service reductions):
Currently, the G2 does not operate frequently enough and is often crowded during peak times. The alternative for many riders is to use the G31 outbound and into Carnegie. Eliminating the G31 - among other routes - will result in all riders having to use the G2 only. I don't know how you can expect to accommodate additional riders on the G2, with routes being eliminated all over the south - west region. And additionally providing service less frequently! That would be disastrous!

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
It is a fact that many have not returned to in-person work in downtown Pittsburgh. However, that does not mean that those remaining folks using the busway are insignificant. The G2, Airport route, and others along the Crafton busway are imperative to travel to key areas. After patterning folks to use PRT, you are abruptly changing the way they must get to and from work, and to and from travel options, such as to the new Greater Pittsburgh International Airport. Please rethink the route cuts. Perhaps the rebranding should not have been considered, and rewrapping buses seems equally ridiculous. Work to provide clean, safe travel as is expected.

Other comments (bus and rail service reductions):
The removal of the silver line would be disastrous for those of us who live in the South Hills and don't drive or don't have cars. My husband and I moved to Bethel Park specifically so that I, a non-driver, could be near the T and be able to get to my job and leisure activities on my own. Taking away the silver line would make that exponentially harder for me and others like me.

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
You may as well get rid of the buses and light rail altogether. You eliminate them and I won't have a way to get to work. So end everything! Give all the saved revenues to all the rich people. And let's watch Pittsburgh just rot all the businesses down there leave.
I am so sick of watching PRT cry about funding. They raise fares and wonder ridership is down. Why they wonder...BECAUSE you raised the fares...AGAIN. Now you are basically eliminating whole routes like MINE. And you will wonder...RIDERSHIP is down...& you'll wonder WHY? BECASUE you cut the routes. You will basically see political will to HELP PRT evaporate. I am 64 years old and can't be expected to walk 3N/A minutes walking 2 miles to Brentwood to MAYBE get a seat on a packed bus. And you think I will be telling my legislators to provide funding for PRT? No WAY.
I hope all your executives are happy about screwing poorer people yet again. You better ask Trump and the Republicans to deny us the vote because we will not forget nor forgive the people taking our buses away.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
When I worked Downtown, I frequently used PRT for commuting as well as travel within the City of Pittsburgh. While I don't use PRT as often now, I am worried for those that do and would like to share some comments.
Beginning with the T Silver Line elimination as that is the transit line closest to my house. Anytime the future of the Library Line is discussed there is always a sense of fear that any closures could become permanent and may result in elimination of, or in a reduction of service quality (i.e. Bus replacement). While not as convenient, I am fortunate that SHV is not too far away, but that might not be the case for all riders. A limited Silver Line service while not optimal would be better.
Outside of the T service impacts, I also worry about bus routes being cut which would affect the elderly, people with disabilities, and others with limited transportation options, especially if those services are eliminated entirely from a community. The elimination of service after 11pm is also concerning especially for riders who may have overnight jobs that depend on transit services to commute on time. Stopping service at 11:3N/Apm or midnight or extending hours for special events might allow riders for more flexibility in the short term.
Other concerns such as closures of the Collier and Ross garages and reductions in ADA service areas for paratransit users will also negatively impact overall transit reliability and access in Allegheny County.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I understand the logic of raising fares, but I would hope that if the state does increase funding, the fare hike would be for a short period of time.

Please tell us about any difficulties you had completing this form:
Form was easy to complete.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I think it's obvious that this will affect people individually, the questions show that. It's going to significantly and disproportionately impact disabled people and black people. It's also going to impact the economy if people can't get to work or to places they want to spend money at. Providing no rides after 11pm is dangerous. People work at all hours. People need health care at all hours. People need to get home at all hours.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Better solutions would be to raise our taxes or get rich people to invest. The people who need the bus tend not to be rich. Not all of them, but enough of them can't afford an increase they'll need to pay at least twice daily.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
These cuts would eliminate 2 of the bus lines I use to get to work and the only bus I can use to get to my singing ensemble rehearsal each week. The only remaining bus line in my neighborhood that would get me to work would require I walk up a really steep hill each day and that is very hard on my body and I can't always do it. I would be forced to quit my singing ensemble as the only bus that I can take from downtown to that area will be eliminated. This will also have devastating effects on my neighbors' abilities to get to work, medical appointments, grocery shopping, etc.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
For the PRT to increase fares while drastically reducing service is unconscionable.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Even people who don't use PRT benefit. If everyone who currently rides a bus were forced to travel by car instead, traffic would be even more of a nightmare than it already is in this city. I live in Pittsburgh because I don't want to live a car-centric life in a car-centric community. Driving everywhere is costly and harmful to our environment and health. I believe we should be INCREASING bus service so that more people will ride.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It is absurd that PRT would charge $3 for service that is already suboptimal. Public transportation should be free for all to ride. Our society devotes too many resources to cars and drivers and it is time to fully support public transportation instead.

Other comments (bus and rail service reductions):
As someone who does not live in Allegheny County, I do not use PRT services regularly. However, I have used PRT services to commute to classes at the CCAC Allegheny Campus and to various concerts and sporting events. Reductions in service will only hurt underserved communities where people rely on PRT service. Also, a reduction of service for the 28X will hurt visitors who will come to Pittsburgh for events like the 2N/A26 NFL Draft.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I think a fare increase might hurt people who use PRT services frequently, however, they might also feel that a fare increase instead of a service decrease would be the better option.

I would still pay the price because i need an affordable way to get to work. I have been riding the buses now for over 52 years! This is how I travel to make a living!
Other comments (bus and rail fare increases):
I work during the day. catch the inbound bus at 7:50 a.m. and out bound after 5 p.m. every monday thru friday. and sometimes connect to another bus to ride another three stops ahead. i buy the monthly bus pass. my firm pays $60 towards that bus pass. I am the only one in my firm that rides the bus. i would love to get the pre-tax benefit that applies to a group of employees, but believe that i do not qualify because of being the only rider at my firm.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
1 day per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Work or job training
How do you identify yourself? Select all that apply.
White
What is your age?
65-74
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$75,000 to $99,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The removal of the silver line would greatly impact my daily commute into work. It also takes away from flexibility as an increase of passengers going to Washington junction and lack of parking spots. I wouldn't be opposed to fare changes, if rail services weren't cut
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
I would be ok with fare increases if rail services weren't cut. Increasing fare and cutting service doesn't seem to help the consumer

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I have several friends and neighbors who would be devastated by these cuts.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
People who rely on the bus service in my neighborhood struggle to pay rent and groceries, both of which are going up. We can't expect them to absorb these costs. These are people who work for organizations making billions of dollars and creating wealth for investors and managers. Those folks should help shoulder the costs.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
There is insufficient parking for events downtown and commuting for work if all who use public transit would no longer be able to utilize the current level of service. Eliminating service lines would create an entirely new set of problems that the county would have to address and cut into any savings experienced by reducing service. I support finding additional funding in the state and/or county budgets to address the public transportation shortfall.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would accept a proposed increase of base fare up to $4 before I would be in favor of major reductions or eliminations in service. It would still be the cheapest option to travel to most destinations compared to paying for ride shares or driving yourself and having to pay for parking, especially as far as downtown is concerned. I support finding additional funding in the state and/or county budgets to address the public transportation shortfall.

I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I built a house in Summit Station and the main reason was for Library station. Also downtown garages are so expensive and my employer will not give me a pay raise to offset the cost. The Silver Line is my only way to work. If the city wants employees to go back 5 days this will be need to make that happen. Where is all the money going when was the last time you passed an audit? I'll will be looking into your records.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
I would like more options of where to go to from Southside, not less. Busses are vital for communities to thrive and decrease traffic. This would start to breakdown the city as a whole and would greatly hurt businesses and communities.
Other comments (bus and rail service reductions):
I currently do not take public transportation as it does not meet my needs/ does not take me where my job is located unfortunately. I would love to actually increase the amount of service available, and to other locations (ie carnegie from Southside). Additionally in the future I was hoping to get a job in which I can take only public transportation, and subsequently get rid of my car. With reduced service I do not think that that would be possible, as areas to get to would be very limited.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Proposed service time changes (i.e., no service after 11pm) would impact the ability to attend sports games, arts, and social events in the city. The T has made these events easily accessible to my family, and the proposed changes would reduce the frequency of our event attendance and restaurant visits downtown.
Further, I oppose all service changes because public transit makes our city more accessible and reduces traffic and pollution. I work downtown and I and most of my coworkers use public transportation to commute from neighborhoods across the county. Downtown parking is limited and expensive, and the currently available parking would not be sufficient to support commuters in the event of the proposed service cuts. This would result in increased traffic and parking prices.
Overall, the proposed service cuts would negatively affect communities across the city and reduce the accessibility of local entertainment and social events. These cuts would make me reconsider staying in Pittsburgh long-term.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
It already is an absolute nightmare having to use this system. It took almost 4 hours to go from beechview to northside and then right back. 4 hours... and that's just one occurrence. Every time thee is work being done. " the last 4 years" You can expect to be be so late you'll lose jobs over it. Luckily mine know prt is garbage. But anyway yea these cuts will make it unusable. Not that I love paying the 1N/Ath highest fares in the country already to be consistently late for work and everything else I need to do. What a mess
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
10th highest already and so in debt, so let's spend how much money rebranding into PRT. And don't forget give the ceo a $55,000 bonus this year when she has no idea what she is doing. Has she even taken a bus or train somewhere other than a stationary photo op. ??? Doubtful

OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Access to the Montour Trail in Library
Other comments (bus and rail service reductions):
PLEASE keep the Silver Line. I use it all the time. I'm a senior and it is by far the best way for me to access most of the things in my life. Also, it is such a beautiful and historic part of the South Hills. I'm really worried about this. If the funding doesn't become available, what are your plans for us? Would bus service become available to mimic this route? I haven't seen any discussion about this. What would you do with the existing right of way? Would it become a rail trail, perhaps as part of the Montour Trail?
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If the Silver Line is closed, are there plans to at least get us by bus from the Silver Line stops to other transit hubs. For me, this would be the South Hills Village Rail Center.

Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.), Y45 BALDWIN MANOR FLYER (Elim.), Y47 CURRY FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
I take the y47 and my stop is on shadow drive off of provost road. If you decide to eliminate the Y47 there is no option to walk to another stop because I live off of provost road and there are no side streets to walk to in order to get to another bus stop and catch another bus. Your suggested changes will destroy the city. Everytime I get on the bus including the 6:2N/A bus in the morning during the weekdays it is crowded so you will be afffecting a ton of people by eliminating the y47. Also, town is already a cesspool of homeless and drug addicts. Once you cut the buses and people have to look for other jobs outside of the city the city in general will go downhill even more as there will be no more working people in town shopping eating working etc.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
Your bus service is horrendous to begin with. Buses come so infrequently for such a big city and the amount of people that take the bus. Standing for almost twenty minutes in town waiting to get into Oakland is a joke plus buses coming every fourties minutes to get to Whitehall. Paying more money for less and or poor service makes no sense whatsoever.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am a graduate student who works 2 jobs. I rely heavily on the buses for transportation both to work and to school. I cannot afford to buy a car, nor can I afford to relocate to be closer to work or campus. Even if I could relocate, my jobs and my school are too far apart from one another, and I would still need to rely on the buses. The proposed cuts would be nothing short of devastating for me and countless others who need the buses for transportation. I cannot reiterate enough the fact that I WOULD NOT BE ABLE TO GET TO WORK OR SCHOOL if the proposed changes go through.
Second to the impact these changes would have on me personally, I would like to bring attention to the fact that these changes would make it considerably more difficult for individuals (myself included) to travel to leisure spots. The reduction in service would negatively impact the local economy by limiting transportation both directly to these spots and to work. PEOPLE CANNOT SPEND MONEY IF THEY CANNOT WORK. AND THEY CANNOT WORK IF THEY DO NOT HAVE TRANSPORTATION.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The new service changes are unfair and would not only affect me, but those who also may not be able to afford other means of transportation. To get back and forth to my job I would have to Uber back and forth and the cost would be about $6N/A out of pocket three times a week. Whereas taking the bus and keeping the current means of travel would help in avoiding that altogether. It is frustrating to think about these possible changes, and would be a burden on myself financially and most likely I wouldn't be able to keep the job.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would rather deal with a .25 cent increase of the fare than have to deal with the cuts altogether. Many things are becoming more expensive to afford, so this isn't surprising but if I can still catch the bus but have to pay a little more that is not much of an issue to me.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I work at an office that serves clients that only use the bus and ACCESS rides for their mode of transportation besides walking. They need these bus lines, often in the suburban areas, to fulfill their daily life duties, such as getting to medical appointments, work, and other activities. It is necessary for them to have these bus lines, or they cannot participate in the daily living that we are all entitled to.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The fare increases would only make it more difficult for people to access public transportation, which is the only way for many people to get around. Further, many people who are low income or fixed income rely on these methods to get around, and so increasing the fare would make it difficult to pay for other things during the month.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
It is important to continue these services for individuals to get the transportation they need to take care of their health. Without these services, medically fragile people may not be able to get the healthcare they need and deserve. ACCESS services are essential for individuals of low income and with disabilities and it would be a great disservice to the community to stop or limit the services.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Low income and fixed income individuals cannot afford to have higher transportation fares as the cost of living also increases in the city.

Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 75 ELLSWORTH (Major Reduction), 81 OAK HILL (Major Reduction), 82 LINCOLN (Major Reduction), 88 PENN (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Already I have to get to work far earlier than I should because the next bus would get me there far too late. It's hard to arrive places on time without having to stand out in the cold waiting for the doors to open. I have to walk a half mile and often wait for ~2N/A minutes just to buy groceries. We don't have a car, and it will make life much harder for people like me. Getting to the airport will require us to change buses, which will significantly add to the time it takes to get to the airport.
Please indicate if you oppose or support the proposed fare increases:

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I specifically bought my house on the T corridor. I never learned how to drive. Having easy access to the T, (and a bus route for when the T is inevitably down), allows me to get to the places I need to be. It's somewhat convenient. I'd love for there to be more, not less, access to stores that I'd like to go to. What I'm really disappointed is that if these cuts go into effect, it would be less time and less walking for me to get to the Target in East Liberty from Dormont, then it would be to get to the one in South Hills Village.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The Ohio Valley line will completely cut off a whole part of Allegheny County to Pittsburgh. Not only does this impact the people because they can't get to work, medical need, events but this will impact the economy of the city. If you want the city to go back to the 8N/As , this would be the answer but if we want to be a modern city - you need public transportation access to all parts of Allegheny County. Doesn't make any sense. No common sense was used with these decisions.

I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
We need to maintain our bus service from Munhall to Pittsburgh. Our route 53L is slated to be discontinued in February 2N/A26 due to decreased funding from state. As I am aging I am limited in driving and the cuts would require transfers that are located in unsafe areas. I also cannot physically get on/off transfer to 3 buses to get to where I need to go for my medical needs. In addition my granddaughter who has a disability and doesn't drive would have to transfer 3 times to attend her classes at CCAC Allegheny campus. Many people in this area are not financially able to afford a car or parking. Yet the light rail service to affluent areas are not affected. You are in fact spending huge amounts of revenue to transport people from Pittsburgh to Oakland on your new project when there are numerous ways to get there. And what about the cuts in night service? I worked in hospitals for many years and their employees that provide care work 24/7. Taking from the poor to give to the rich. Typical response by government agencies

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
When it comes to the silver. Taking out a some times makes sense. Cutting entire trolley line doesn't. People have bought houses close to it to be able to use it. Not everyone can drive due to variety of reasons. Eliminating an entire service to an entire side of town like that is just ridiculous

OPPOSE the proposed service changes
Service change impacts (ACCESS)
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (ACCESS service reductions):
Reductions in ACCESS service times and availability and also increasing fares would make it more difficult if not impossible for older adults who don't drive to access medical appointments. Cuts to ACCESS will trap older adults and people with disabilities in their homes and that is inhumane and dangerous.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would have to make decisions about whether to pay for ACCESS or other essential expenses
Other comments (ACCESS fare increases):
People on fixed incomes are already struggling with inflation increasing the costs of groceries and medicine. If ACCESS transportation costs double that will be a major burden on low-income older adults and people with disabilities.

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
While I personally will not be impacted, I understand many members of our community depend upon public transit to access employment, education, food access and medical appointments. Not everyone has access to a personal vehicle to provide access to these basic but necessary functions of life. With reductions in access to public transit, we will likely see an increase in rates of unemployment and food insecurity at a minimum.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Our fares are already high- an increase will put financial strain on families who are already struggling to keep up with the rising costs of running a household.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The public transportation in Pittsburgh is always behind other cities. I would take it more if they had more routes or drove late. Additionally, maybe drinking and driving would lessen in buses rode 24/7. It would provide an alternative to Uber and Lyft at a cheaper price. Instead of making a better community for the people you keep shutting things down, making things harder. For once, stop lining pockets and get our city to progress. We shouldn't only be known for healthcare. It's high time we are known for better streets, ease of transportation, and good jobs. Get on it folks.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am able to drive but prefer to take public transit when I can. But as a senior, I see the day coming when driving will not be an option. I know many people for who cannot drive, for physical or financial reasons. (One of these people is my wife!) We should be increasing routes and frequencies, not decreasing.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I support the increases, if accommodations can be made for low-income riders. A 9% increase after so many years is a lot, but bus fares are still considerably lower than the cost of operating and parking a car.

I have one suggestion. As a senior, I have a Senior Connect Card that allows me to ride for free. In most other communities, a senior fare is typically half the standard fare. I have a good income, and would be happy to cover at least part of the cost out of pocket.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I no longer use mass transit because I am now financially stable enough that I have my own car (I also no longer live in an area that service reaches me and while I still work in the city there is sufficient parking space that I no longer need to park in another area to take the bus in). But as someone who used to heavily rely on mass transit regularly. I understand how important it can be for others who use it as well. Cutting service to areas will significantly (and negatively) impact the lives of those who still rely on it like I did
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The fare increases for 3 hour pass, day pass, 7 day pass may not be the worst. 31 day pass is pushing it. But I could definitely see people struggling to afford the yearly pass which if they don't have a car to get around, they're most likely using that option

Oppose or support specific reductions.
OPPOSE: P71 SWISSVALE FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Decreased ridership on the P71 is driven by unreliability not lack of interest. It is routinely 2N/A-3N/A minutes late downtown outbound and only runs every 45 minutes. The driver said he is late because there is no coach available for him. It has also frequently been detoured unexpectedly with no explanation adding time to the ride and has gotten stuck in gridlock for multiple rounds of traffic lights adding time to the ride. I've also been on multiple buses that have broken down within a year. I have a tight schedule due to childcare arrangements. I cannot risk routinely being 3N/A-45 minutes late and cannot hedge my bets with an earlier or later bus because of how infrequently they already run. The status board is also frequently wrong in the evenings at 6th and Smithfield saying no more P71s for the day leading people to think they should make other arrangements. I was hopeful the route might be streamlined or stop less frequently to make the ride shorter. It is disingenuous to say the 61B is a viable alternative. It adds considerable walking distance based on where I get on the P71 and is even slower. Frankly, the 6th and Smithfield stop isn't somewhere I'm eager to spend 3N/A minutes standing around waiting for a bus either. In that time span there is likely to be at least 1 instance of someone behaving erratically like screaming expletives and threats into their cell phone or being obviously under the influence of drugs. I've moved towards driving to Hamnett and taking the P1 or driving downtown instead of taking the P71 because of deficiencies in the service not because I don't want to use that route.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
Systems thinking
Other comments (bus and rail fare increases):
Increased fair + decreased service = downward spiral of decreasing public transit usage because people who can choose alternatives increasingly will leaving public transit with reputation as undesirable.

How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
Prefer not to respond
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Access to transportation is a critical basic need that impacts one's ability to maintain employment or education, receive medical care, access grocery stores, etc. The proposed cuts would greatly reduce our already under-resourced residents, exacerbating the effects of food deserts, unemployment, competition for affordable and available housing, and more.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
PRT already boasts one of the highest fare rates in the country, which is compounded by Pittsburgh's relatively lower cost of living compared to other cities of our size. Increasing fares would disproportionately affect our low-income neighbors, who already struggling with increasing costs for food and housing.
Please indicate if you oppose or support the proposed changes to ACCESS service:

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The 28X bus route from the East End to the Airport is a key route. My family and I regularly take it to and from the airport, saving on the significant expense of a taxi. The proposal to have it no longer come to the East End and not even to downtown, would mean we would no longer take the bus.
More broadly, many thousands of students and visitors at the Universities in Pittsburgh would no longer be able to rely on it to get to and from the airport. We should change our visitor travel guidance, adding $1N/AN/A to teach trip (round-trip). This would be a major change and loss.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
At my job I rode the 41 bus to and from work every day (and on occasion, the 31 and G31).
These are all popular lines that many people rely on for transit. Getting rid of the flyer and reducing the 31 is bad enough for those of us who live in the Bridgeville area, but to also eliminate the 41 entirely is madness. There are so many people who ride on the Bower Hill bus...it's a very long route, with lots of stops. It services a lot of people. There are regular passengers who are disabled, or visually-impaired with canes or seeing-eye dogs who - presumably - have no other easy means of getting to where they need to go. What are they supposed to do if these changes go into effect?
You're effectively cutting off all reliable transit for commuters from the South Hills. Not everyone has the ability to drive into the city - some are physically unable, some don't have a license or access to a vehicle, some won't be able to find/afford parking in town. You will make the lives of everyone who lives outside but works in town that much harder. I'm sure there are many people who will have to consider serious career changes if you do this.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel

Other comments (bus and rail fare increases):
I come from Chicago where public transit is amazing. Between bus or light rail I can get anywhere in the city. You are dooming this city to a second class place to live without strong public transit and put a rediculous pressure on those less fortunate economically. This will become a less affordable city to live in and significantly reduce livability and population growth

Other comments (bus and rail service reductions):
Young people who go to high school and live in this area of Pittsburgh take bus number 4. My mom uses it to go to work, buy groceries, and many people who don't have a car rely on it too. I often see many elderly people taking the bus as well, and all of this would greatly affect us in the Troy Hill area. Honestly, I would rather see the fare increase—even though that would have a big impact on our wallets—because the bus is essential for the residents of Troy Hill.

Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
Young people who go to high school and live in this area of Pittsburgh take bus number 4. My mom uses it to go to work, buy groceries, and many people who don't have a car rely on it too. I often see many elderly people taking the bus as well, and all of this would greatly affect us in the Troy Hill area. Honestly, I would rather see the fare increase—even though that would have a big impact on our wallets—because the bus is essential for the residents of Troy Hill. The economy isn't doing well. Everything has gone up in price now, and we poor people always pay the price. If we drink and rely on public transportation, it's obviously because we can't afford other means of transportation, and raising the price would only hurt our pockets. It would be another blow to our pockets, on top of what we're already experiencing. PLEASE THINK OF THE POOR WHO LIVE DAY TO DAY.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
Other comments (ACCESS fare increases):

Other comments (bus and rail service reductions):
I have been riding Port Authority in I commute to Pittsburgh for my job since 1983 (42years)! I was around when my current bus the P76 was the 68J. I've seen lots of changes over the years and I feel that over these last 5 years since the pandemic, there have been some changes that I don't understand and seem to be wasteful spending. For example, the name change to PRT which resulted in tons of money spent to change signs, repaint buses, all the new marketing changes. Then there was all the "beautification" changes to the busway stations, especially the Negley station, it made no sense to spend tons of money to create a round seating area and change the overhangs. And finally the money being spent on the "University Loop" which is making so many changes to various sidewalks thought out the city. I think the current administration at PRT spends wasteful money and THAT is how we got here. Maybe DOGE needs to show you how to cut wasteful spending with all the big wigs that are overpaid, have company cars instead of riding their own buses like the rest of us do, and spends money on lunches/dinners while the rest of us are at risk of losing the transportation they need! You are running the company into the ground! My bus (P76) is on the chopping block which will force me to find alternative transportation to get to my job in the city! I really feel bad for people in my area that don't drive and can't get themselves to a busline. You people are ridiculous and should be ashamed of what you have done to get us in this position.

Other comments (bus and rail service reductions):
It makes no sense to completely eliminate service to major areas of the city, especially low income areas. I am not in walking distance to light rail but am in walking distance to 3 bus lines, all of which are proposed to be cut. In the goal of reducing costs, PRT will eliminate ridership completely with many of these changes.

OPPOSE: O1 ROSS FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
having only one stop in town, changes how safe I would feel walking through town. It would change my entire schedule. I would also have the challenge of all the elements for a longer distance & period of time. Not to mention having to walk when it gets dark after or on my way to work.
It would also be an added expense. I have a senior pass but would probably have to drive sometimes or not even go to work.
Also, I'm not opposed to combining the routes, but we would need added times and bigger busses. We are packed in on the smaller busses as is.
I also feel like you could have may be two or three stops from Stanwix to uptown, and still have the direct route to Oakland.
The majority of riders on my route get off in town. It is an inconvenience to more people than it would be a convenience for a few.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
This would impact the timing of when I would be able to travel. I don't have a car or another way to get around. This would more greatly affect my ability to get to see my family. They live in neighborhoods where the busses would be cut entirely and they also rely entirely on public transportation. More so, they wouldn't be able to get to work without those busses, and paying for ride services each day is too expensive. We need reliable public transportation. People build their lives around it, have homes, leases, careers, childcare. To have that taken away when other aspects of life are already getting more expensive is too much.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
If fare increases mean that there are no cuts, then I support them, but ONLY in that instance. You can't ask for more money while taking services away from people, especially when they depend on those services for their livelihoods. Otherwise, if people are paying more, it should mean that they are getting better services.

Other comments (bus and rail fare increases):
I would MUCH rather pay 25¢ more a trip and still have access to the silver line. My house is near a silver line stop and that was a major deciding factor in my buying this home. My travel downtown would greatly decrease, more time at home means less spent on the local economy.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
SAVE THE SILVER LINE!!! my daughter and her husband bought a house in Bethel Park a short walk from the Kings School Road stop on the silver line. Proximity to the silver line, played a major role in their purchase. They use this regularly to go downtown or to come visit us. For going downtown it's much more convenient as it does not use a public right of way, especially in bad weather. Eliminating the silver line will be a huge detriment to those close by neighborhoods in Bethel Park and to those of us who travel to destinations in those neighborhoods.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail fare increases):
Get fareboxes that accept dollar bills more easily. It has been frequently observed that drivers tell people struggling with inserting dollar bills to just sit down resulting in the person paying only a partial fare or no fare at all. This is bad for an organization that is struggling financially.

I would no longer be able to get to school, daycare, or childcare
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Reducing and eliminating routes that enable neighborhoods to get downtown is cruel and would greatly impact mine and my neighbors lives and livelihoods. People rely on the busses to get to work, doctors appointments, and get groceries. Sure some routes would still be viable, but the times it would take would become astronomical.
Currently it takes 2 buses and almost an hour for me to get to and from work, this proposed plan would have it take almost 2 hours for the same 2 bus routes, making a 1N/A-hour day into a 12-hour one. Unacceptable.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail service reductions):
I oppose reducing public transit services. I moved to Pittsburgh over a year ago for a new job. I moved here with the understanding that Pittsburgh offers the infrastructure expected of a city, which includes a public transportation system. A big part of why I have enjoyed living in Pittsburgh, and hope to continue to, is because of the accessible bus system that allows me to travel throughout the city. To be able to take the 91 bus to work and downtown. On weekends using buses like the 64 to travel to various neighborhoods. And the x28 to travel to the airport.
With the proposed reductions, I am questioning whether I want to continue to live in Pittsburgh. I heavily rely on using the x28 bus to the airport to visit friends and family that I have chosen to live far from to move to and work in Pittsburgh. I will have a near-impossible time traveling if the x28 bus does not stop downtown.
The transit system has been poorly financially managed. By choosing to reduce necessary service, the fault of that poor management is falling on the riders. Please look for alternative options before giving up on the transit system which is a lifeline for many residents.

OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am a Service Coordinator for the non-profit South Hills Interfaith Movement located in Bethel Park. A number of our clients take the Silver Line to our Bethel Park location which is a block away from the South Park Road stop. We provide financial assistance, self-sufficiency coaching services, a food pantry, and other basic needs to residents of the South Hills. The Silver Line is a huge asset to low-income residents from all over the South Hills in getting to our office and receiving the assistance they need. We also have a clothing closet housed at a church a little further down the line that is accessible from the Munroe stop. Additionally, we assist people in finding employment and encourage them to do so along the PRT lines. So the loss of the Silver Line will be detrimental to those efforts for our clients that live along it. We've seen the need for our services increase each year and with all that is changing in the federal government and trickling down to the state and local governments, we anticipate seeing an increase in the number of residents requesting assistance. Our local residents and our clients need the Silver Line to remain functioning.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I'm seriously concerned about the number of additional cars that will be on our roads every day because of the proposed service cuts - they'll only lead to higher probabilities of vehicle accidents and pedestrian injuries, not to mention more air pollution. Pittsburgh has the potential to be a cutting-edge city of the future, but not without a properly funded transit system. We deserve better.

Other comments (bus and rail service reductions):
Ad a taxpayer, many times we keep programs alive as numbers dwindle, it is imperative that this line remains viable. The impact on business, personal and everything in between will be impacted negatively.
The Washington Junction is incapable of supporting the overflow that will be created by these pending changes.
Please reconsider and remember the taxpayers supporting the program should be allowed to reap the benefits of their taxes.

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I ride the bus regularly to get to to work, medical appointments, and other purposes. Fortunately the routes I use the most are not facing major changes (mostly reductions in frequency and night hours, which will impact my flexibility). However i recognize that others will lose routes entirely that they depend on to work, to attend to their health, to get to school, and more. For all these reasons I strongly appose all cuts.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I am thankful that my employer provides me with a bus pass. I hope that this will continue even if there are fare increases. However I recognize that many riders already struggle with the cost of fares and an increase may make it even more unaffordable to them.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Having worked in aging services for 15 years I am familiar with ACCESS services and the lifeline ACCESS provides riders. For many older adults and individuals with disabilities, ACCESS may be their only reliable source of transportation. Without it they may lose the ability to leave their home and get to work, medical appointments and therapies, grocery stores, senior centers, social activities, visits with friends and family members, and more. This service is so so important and cuts would be devastating.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Many older adults and people with disabilities live at or near poverty and even small increases in fares can have huge impacts on already tight budgets. I strongly oppose fare increases.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Closing routes would imminently create an unaffordable commute for those who do not have expendable income for garage parking. With rising costs all aspects of life, losing the ability to ride a bus in from a park and ride would be unfortunate.
Additionally, I have seen many children boarding the bus to get to school. Prior to working at PRT I was unaware that children relied on public transit to get their education. Failing our children by closing these routes would be unfair.
There is potential for an array of industries to be negatively impacted by route closures, should their employees be unable to ride the bus to work daily. Impacting our communities in such a harmful way is unthinkable.
The looming negative impact of closures will affect college students, medical personnel, grade school children, our own employees, senior citizens (both gainfully employed who commute to the city and those who simply can no longer drive), and the disabled. Then let's not leave out the sporting events. For anyone to lose the ability to safely receive our transportation services would very simply be a disservice to all.
Our community suffered when routes closed years ago, and rippling impacts rub people the wrong still. Our communities have not healed fand riders have not forgotten; Those which were on a much smaller scale than we are facing today. To repeat that on a much grander scale is ghastly.
Our goal should always be not to repeat the past but to instead positively explore and pursue viable ways to help communities we serve feel supported, served, and heard. We have an obligation to be consistently reliable.
We need to grow and expand, work with communities and districts, continue rebuilding faith in the public eye, help the communities that we serve feel like a partner and if we do not provide growth, partnership, and stability then we will fail at our mission and duty. We must be funded to pursue these endeavors. Not for the money but for sustained stability for employees, students, and residents alike across Allegheny County and neighboring counties we need transit operations to be fully funded and flourish.
In short, we need funding. We have an obligation to be smart spenders, to not come back to this if we do get funded. Be it for all people both internal and external we need PRT to be fully funded and thriving, not for us to go in the complete opposite direction.

Other comments (bus and rail fare increases):
I believe in low costs for riders but feel these could be examined and a new model could increase revenue. Uber/Lyft charge much more and the way we came to these numbers is unclear. A dollar an hour for 3 hours then a whole day for $7.50 just seems odd. Maybe 4 hour and 6 hour incremental rates could be considered. Weekly, monthly and yearly pass rates could be based off these. Riders going to/from work are only riding about 1 hour a day, so they would need 5 hours a week. Students the same. Five rides at 5 times a week is 100, so a monthly pass is less than $1.00/day and when you compare that to $20/day parking or an Uber/Lyft I'm wondering if we have some room to increase fares slightly more for adult riders. Also, grow our pass options for students/professionals/sports enthusiasts.
